White Religion And Black Humanity:

White Religion and Black Humanity Harry H. Singleton, 2012 In this insightful work Singleton analyzes the white religious establishment's use of Christian faith throughout American history to link divine will with black oppression. This book is a must read for anyone interested in the historical and contemporary impact of Christian faith on the current racial situation in America.

Black Lives and Sacred Humanity Carol Wayne White, 2016-05-01 Identifying African American religiosity as the ingenuity of a people constantly striving to inhabit their humanity and eke out a meaningful existence for themselves amid harrowing circumstances, *Black Lives and Sacred Humanity* constructs a concept of sacred humanity and grounds it in the writings of Anna Julia Cooper, W. E. B. Du Bois, and James Baldwin. Supported by current theories in science, studies, critical theory, and religious naturalism, this concept as Carol Wayne White demonstrates offers a capacious view of humans as interconnected social value-laden organisms with the capacity to transform themselves and create nobler worlds wherein all sentient creatures flourish. Acknowledging the great harm wrought by divisive and problematic racial constructions in the United States, this book offers an alternative to theistic models of African American religiosity to inspire newer conceptually compelling views of spirituality that address a classic perennial religious question: What does it mean to be fully human and fully alive?

The Burden of Black Religion Curtis J. Evans, 2008-04-10 Religion has always been a focal element in the long and tortured history of American ideas about race. In *The Burden of Black Religion*, Curtis Evans traces ideas about African American religion from the antebellum period to the middle of the twentieth century. This important work reveals how interpretations of black religion played a crucial role in shaping broader views of African Americans and had real consequences in their lives. In the process, Evans offers an intellectual and cultural history of race in a crucial period of American history.

Divine Revelation and Human Liberation Harry H. Singleton III, 2020-07-07 Harry H. Singleton is concerned in this work with the disparate ways blacks and whites have experienced American history and subsequently the way they have fashioned God's communication to humans, formerly referred to as revelation. This book makes the case that while white Christian leaders have rooted God's revelation either in an inherently inferior black humanity or a Christian faith void of black suffering, black theologians have rooted that same revelation in the plight of oppressed peoples in general and black people in particular, i.e. that God's essence is found in the struggle for human liberation. With clarity and passion, Professor Singleton draws on the treatments of revelation of the most celebrated white theologians to demonstrate that the Christian theological enterprise has by intent and effect linked God's revelation with black inferiority. Black theologians, on the other hand, have countered seeking a more liberating view of black humanity by making the case that the God of the Bible ultimately intervenes in contexts of human oppression not for their perpetuation but rather for their destruction. In this sense, Singleton pushes the reader to the conclusion that although the treatments of revelation between white and black theologians have been as different as their lived histories, the object of revelation has been the same: the humanity of black

people Thus Singleton puts forth the bold argument that the racial struggle in America has not only been an historical struggle for determining the humanity of black people but a theological struggle for determining the humanity of black people as well But far from remaining objective Singleton takes the liberating path for black humanity and presses his way through the pages of this work seeking a new paradigm for revelation that no longer places God at the intersection of the white black encounter as a condoner of racism or as a disinterested observer in the racial struggle but rather as an eternal light whose very nature is seen in the continuing quest for human liberation
