

Why do we read literature?

Literature represents a language or a people: culture and tradition. But, literature is more important than just a historical or cultural artifact. Literature introduces us to new worlds of experience. We learn about books and literature; we enjoy the comedies and the tragedies of poems, stories, and plays; and we may even grow and evolve through our literary journey with books.

Sumara, 2002-05-01 Why Reading Literature in School Still Matters Imagination Interpretation Insight explains how a reader's involvement with literary texts can create conditions for developing deep insight into human experience and how teachers can develop these interpretive possibilities in school contexts Developed from the author's many years of research this book offers both a theoretical framework that draws from an interdisciplinary array of sources and many compelling and insightful examples of literary engagement of child adolescent and adult readers as well as practical advice for teachers and other readers about how to create interesting and expansive sites for interpretation that are personally rewarding and productive Why Reading Literature in School Still Matters Imagination Interpretation Insight provides an overview of theories of human learning that influence beliefs about language culture and identity shows how these theories of learning influence beliefs about and practices of reading and interpretation introduces new ways to conceptualize reading that emphasize the relationship between individual and collective identities and language literacy practices explains why access to information does not guarantee that understanding and or insight will occur by emphasizing the importance of re-reading and close reading this text shows that development of deep insight depends on interpretation skills that must be taught and presents a reconceptualized view of reading pedagogy This is an essential text for education courses at both the undergraduate and graduate levels and a must read for teachers and for anyone interested in more deeply understanding how literary works of art can create conditions for learning about oneself one's situation and one's possibilities Literacy and Learning Brett Elizabeth Blake, Robert W.
