Why I Teach The Road Less Travelled:

Why I Teach Bryan Johnson, 2019-08-16 This book is about the last year and a half that I taught in Oklahoma City Public Schools in a Title I school where 98% of the students receive free lunches I challenged myself to write a journal entry everyday about what was going on in my classroom and throughout the school *Teacher's Journey* Robert John Meehan, 2011-02 Robert John Meehan's poetic insight into the heart and soul of both teacher and student tugs at readers emotions like few writers can His depth of experience as a teacher in some of the nation's most difficult schools over a period of four decades is deeply embedded in each of his selections of poetry His ability to share the joy sorrows and at times the horror of teaching in today's inner city schools is brought to the forefront in each of the poems included in his *The Teacher's Journey* Meehan has accomplished much over the past decades in encouraging other teachers to share their feelings emotions and experiences in working with students Follow Meehan as he inspires students and teachers alike in *The Teacher's Journey* to understanding the meaning of being an authentically effective teacher *Middle School English Teacher's Guide to Active Learning* Marc Moeller, Victor Moeller, 2013-10-30 This book shows you how you can foster reflective independent thinking in your class boost the number of students who actively participate and prevent the discussions from falling flat or degenerating into bull sessions This volume features 20 student centered lesson plans and includes answer keys for teachers Each lesson plan engages students in active learning *INTRODUCTION TO COLLEGE PHILOSOPHY TEACHER SUPPLEMENT* Victor Moeller, 2013-07-11 This college course an Introduction to Philosophy is not a history of the great philosophers and their systems It is not a survey of the traditional divisions of philosophy metaphysics epistemology phenomenology ethics politics and aesthetics It is however a process of doing philosophy that takes up some of the basic questions and problems that we will all encounter in life sooner or later It is also an application of the Socratic method of teaching and learning that develop habits of independent critical and reflective thinking It is a series of Socratic seminars on the Great Books by the greatest faculty of the Western world and a process that illustrates how to pass from the world of work need and empirical science into the world of all things beings that Being provides **High School English Teacher's Guide to Active Learning** Victor J. Moeller, Marc V. Moeller, 2000 These books show you how you can foster reflective independent thinking in your class boost the number of students who actively participate prevent the discussions from falling flat or degenerating into bull sessions This volume features 18 student centered lesson plans and include answer keys for teachers Each lesson plan engages students in active learning *The Road Less Traveled* Ali Jimale Ahmed, Tadesse Adera, 2008 A horn is an instrument either for protection or destruction The horn in the Horn of Africa has for so long turned inward and on its people thus victimizing those it was supposed to defend The ensuing internecine bloodletting has thrown the region into an abyss out of which it is still struggling to emerge Much of the story of this abyss is captured in social political economic and literary treatises written by indigenous and international experts Rarely however has there been a

single volume that brings together keen analyses of the expressive arts of Djibouti Eritrea Ethiopia Somalia and Sudan The Road Less Traveled is the first book of its kind It brings together in the same volume essays on the literatures of the Horn of Africa written by renowned regional and international scholars All the countries in the region their major writers and the genres through which the people in the Horn express themselves are given careful attention The volume also includes essays that traverse borders and or transgress generic delineations delimitations The essays in the volume attest to a simple fact namely that through the arts humans weave a labyrinthine system of symbolic representations that bear witness to lives lived or imagined And while in the Horn of Africa catastrophes may abound the calamity that besets this region can equally be explained through its antiphony the perseverance and cosmic albeit cautious optimism of its people A horn after all is also a way of making music

Why I Teach Edward B. Anderson, 2015-11-21 Why I Teach is an account of my life and the ability to persevere great physical emotional and social obstacles to achieve my dreams and goals There are accounts given of inmates including my younger brother who did not persevere to overcome the obstacles in life to achieve their goals and their dreams Why I Teach gives a roadmap in how to overcome some of the greatest hills mountains and valleys for those willing to make the right choices in life to avoid the criminal justice system I visited numerous family members in prison and it had such a profound effect upon me that I knew prison or jail was not the place I wanted to be and certainly not the place I wanted to see others end up As a teacher in a high poverty community I see many of my former students making the wrong choices and going down the wrong road in life I hope that this book provides an insider's perspective for how youth can avoid the criminal justice system
