The Endangered Species Problem Daniel R. Faust, 2021-07-15 In 2018 three species of birds went extinct These species are gone forever and many more species of plants and animals are in danger of going extinct every year Scientists estimate that almost half of the species on Earth could be extinct by 2050 This volume looks at the issue of endangered species and the impact that human activity has on the many plants and animals that share our planet Colorful photographs primary sources and helpful graphics illustrate the conservation efforts made by scientists and lawmakers around the world This book will encourage your young readers to take an active role in solving this problem World Wildlife Conference: Efforts to Save Endangered Species ,1973 Saving Endangered Plants and Animals James Bow, 2008-09-30 A discussion of the reasons that plants and animals become extinct and what scientists are doing to prevent it Endangered Species H. A. Goodwin,1970 Saving Endangered Species Robert W. Shumaker, 2020-10-27 The amazing true stories of the greatest wildlife champions of our time Wildlife conservation is at a critical juncture While large charismatic mammals may be the first animals that come to mind the mere 3 000 wild tigers still in existence the giraffes declared endangered for the first time just last year it is not only these magnificent keystone species disappearing A full third of all studied birds reptiles and mammals have suffered devastating population losses and a third of all insects are now endangered including crucial pollinators that sustain worldwide food supply Over 15 000 animal species are now considered to be threatened with extinction There are however bright spots that provide optimism many of them due to the efforts of a small group of scientists and activists In Saving Endangered Species Robert W Shumaker brings together ten conservation heroes seven of them winners of the Indianapolis Prize three of them recipients of the Jane Alexander Global Wildlife Ambassador Award With moving immediacy each wildlife defender offers their unique perspective on the state of wildlife conservation and the future of the natural world Bringing to life their work in the field each contributor also explains key concepts in wildlife conservation reveals why they are important and discusses what kinds of work can be done to address biodiversity loss Contributors sharing their stories in their own words include George Schaller one of the founding fathers of wildlife conservation who conducted the field work that resulted in the establishment of the world's largest wildlife preserve the Arctic National Wildlife Refuge Iain Douglas Hamilton who is widely credited with developing the metrics and methods that stemmed the tide of elephant poaching for ivory in Africa Steven Amstrup who discovered the disturbing truth that the sea ice polar bears rely on for traveling hunting and raising their young was disappearing Russell Mittermeier who has discovered over 20 new animal species conducted field work in more than 30 countries around the globe and authored 15 books on biodiversity Harrison Ford Academy Award winning actor who has been a passionate wildlife advocate and board

member of Conservation International for over 25 years Sigourney Weaver three time Academy Award nominee whose work with the Dian Fossey Gorilla Fund has helped save thousands of gorillas in Rwanda and Congo This unique book aims to win new recruits inspire biologists and conservationists already in the field and illustrate the profession's fundamental scientific tenets through wildlife champions own exciting narratives Covering issues from reproduction and prey predator relationships to population dynamics and community engagement Saving Endangered Species also addresses such thorny topics as overhunting retaliatory killing by farmers development driven habitat loss and the illegal wildlife trade By encompassing a broad spectrum of subjects this volume ultimately gives readers a first person look into what it takes to dedicate oneself to the crucial field of wildlife conservation Contributors Jane Alexander Steven C Amstrup George Archibald Michael I Crowther Iain Douglas Hamilton Harrison Ford Carl Jones Russell Mittermeier George B Schaller Robert W Shumaker Sigourney Weaver Patricia Chapple Wright How To Protect Endangered Animals - Animal Book Age 10 | Children's Animal Books Baby Professor, 2017-04-15 Endangered animals need everyone s help regardless of age gender race and social status The first step to protecting endangered animals is to educate the young The purpose is to make children become aware of what endangered animals are where they can be found and what can be done to save them Read this book with your 10 year old Review of recent efforts to protect endangered species United States. Congress. House. Committee on Foreign Affairs. Subcommittee on International Organizations, 1979 Protecting Threatened Species Sally Morgan, 2008 This series shows the relevance of the science that students study to our everyday lives and the areas of research that are being pursued by academics and industry Each book explores how real scientists are undertaking oractical research and investigations It also looks at the difficult decisions that have to be made the ethical issues surrounding many scientific topics and the cutting edge of scientific inquiry Saving a Place: Endangered Species in the 21st Century John A. Baden, Pete Geddes, 2018-02-05 This title was first published in 2000 The noble goals embodied in the Endangered Species Act are colliding with financial and social realities Citizens increasingly face the costs of current policies while initiatives which fail to respect liberty and property meet serious resistance at every turn Despite widespread verbal support for saving species at any cost when trade offs become obvious and values compete support for these policies evaporates This edited collection examines ethically and materially responsible approaches to this problem written by leading international figures from a variety of disciplines The result is the most comprehensive and constructive analysis of the effectiveness and viability of endangered species protection available Review of Recent Efforts to Protect Endangered Species: Consideration of proposals to ban commercial whaling; markup; review of the 31st session of the International Whaling Commission United States.
