Wicca Book of Spells Lena Covens, 2020-10-22 The topic of magic often sparks both interest and controversy in the field of Wicca It is common to find people develop an interest in becoming Witches solely because of the magic involved in Wicca In the same vein some others are interested in discovering the supposed supernatural behind the performance of magic The term Magic describes the process and practice of manipulating natural forces using one's personal powers and will to bring about desired changes in the universe It is often the case that such changes cause awe especially among those not skilled in the art This is achievable through a variety of methods including spellcasting rituals candles making potions dances incantations wands and so on Magic as a concept is quite broader than Wicca By this I mean magic is not an exclusive

practice of Wiccans Individuals and groups who are not in any way related to Wicca have always practiced and still practice magic This implies that although magic is an essential part of Wicca it is not an exclusive practice of the neopagan religion However it must be mentioned that the term Magick did not exist until the 19th century The alteration was introduced and popularized via the works of Aleister Crowley a key figure in the British Wiccan movement in the 19th and 20th centuries This alteration was to establish a difference between the Wiccan magic and the activities of illusionists and stage magicians whose stock in trade was to entertain people with their magical powers What is today known as magick exclusively describes the revered activities of Wiccans and is also referred to as Witchcraft or simply The Craft To a large extent the Wiccan magick isn't much different in form from the known ancient magic since it involves the same process and practice of bringing about changes in the physical realm with the help of supernatural powers The aim however differs This book covers the following topics Timing your spells and correspondences Consecrating your candles Book of shadows The basics of spellcasting How to begin How to set up your personal wiccan altar Spells for motivation Spells for health and healing The realm of spells The magic within you And much more Admittedly people perform magic for diverse purposes ranging from personal to commercial purposes One could do magic to land themselves a better job to avert dangers or protect themselves from harm to get a partner to recover from an ailment to get wealthier and a host of several other personal reasons For Wiccans however the aim is not entirely so personal This is not to say that Wiccans do not use magic for personal gains protection and so on but rather they view magic as a more of a spiritual journey for a Wiccan to express themselves This explains why magick is a core part of the Wiccan festivals and rituals Do you want to learn more BUY NOW *Wicca Book of Spells* Lisa Casey, 2021-01-11 The world of magic is full of immeasurable potential With no central sacred text to follow it can be difficult for an aspiring Wiccan to know where to begin Using my many years of experience as a practitioner I dispel all the common misconceptions about this diverse religion giving my readers the perfect foundations for taking their first steps on their Wiccan journey There's no agenda or bias regarding any particular practice of Wicca here just solid information to help you carve out your own path using the ideas that resonate with you This book seeks to unearth the early beginnings of Wicca and other basics that you need to know as you start out in the religion It is more of a guide that prepares you and sets you out for greatness You are sure to learn more about spells shadows different types of spells and how you can make your own spells Let's get started in this manifestation journey that will change the way you view the world This book seeks to explain what a Book of Shadows and the difference between a Book of Shadows book of spells and a grimoire My intention is to bring you closer and show you what Wicca is take you through the journey of Wicca spells and magic with an in-depth explanation of what happens at different stages There are literally thousands of spells in existence for every purpose you could possibly imagine In this book you will find spells and other magical workings that when applied with focused intention can bring positive experiences into your life Take this as a journey rather than a quick rush or just reading for the
