Altruism in World Religions Suzanne Neusner, Bruce Chilton, 2005-11-08 In 1830 philosopher Auguste Comte coined the term altruism to provide a general definition for the act of selflessly caring for others But does this modern conception of sacrificing one s own interests for the well being of others apply to the charitable behaviors encouraged by all world religions In Altruism in World Religions prominent scholars from an array of religious perspectives probe the definition of altruism to determine whether it is a category that serves to advance the study of religion Exploring a range of philosophical and religious thought from Greco Roman philia to Judaism Christianity and Islam from Hinduism in India to Buddhism and the religions of China and Japan the authors find that altruism becomes problematic when applied to religious studies because it is in fact a concept absent from religion Chapters on Judaism Christianity and Islam reveal that followers of these religions cannot genuinely perform self sacrificing acts because God has promised to reward every good deed Moreover the separation between the self and the other that self sacrifice necessarily implies runs counter to Buddhist thought which makes no such distinction By challenging our assumptions about the act of self sacrifice as it relates to religious teachings the authors have shown altruism to be more of a secular than religious notion At the same time their findings highlight how charitable acts operate with the values and structures of the religions studied *Building Your Epic Life* Luciano Castillo, 2025-12-15 *Building Your Epic Life* empowers young people to understand that failure is an inevitable and essential part of the journey to success The author shares his own challenges and struggles showing that no path to success is linear and without setbacks The book teaches the value of building a healthy body mind and spirit and includes exercises that offer actionable plans for individuals to realize a meaningful self defined life based on their core values A proven roadmap workbook and short lectures guide readers through a series of practical steps to discover their purpose vision and understand the value of mentorship and why each of these is fundamental in identifying life s important moments and opportunities *Building Your Epic Life* also
