Wise Stewards Philosophical Foundations Of Christian Parenting:

Wise Stewards Michael W. Austin, Supplemental text for family and marriage courses resource for pastors and marriage counselors parents **God, Marriage, and Family** Andreas J. Köstenberger, David W. Jones, 2010 This updated edition of Köstenberger and Jones's landmark work tackles the latest debates and cultural challenges to God's plan for marriage and the family and urges a return to a biblical foundation Loving God with Your Mind Paul Gould, Richard Brian Davis, 2013-12-18 Over the past twenty five years no one has done more than J. P. Moreland to equip Christians to love God with their minds In his work as a Christian philosopher scholar and apologist he has influenced thousands of students written groundbreaking books and taught multitudes of Christians to defend their faith In honor of Moreland's ministry general editors Paul M. Gould and Richard Brian Davis have assembled a team of friends and colleagues to celebrate his work In three major parts devoted to philosophy apologetics and spiritual formation scholars such as Stewart Goetz Paul Copan Douglas Groothuis Scott Rae and Klaus Issler interact with Moreland's thought and make their own contributions to these important subjects Moreland concludes the volume with his own essay Reflections on the Journey Ahead **Virtues in Action** M. Austin, 2013-10-10 In recent decades many philosophers have considered the strengths and weaknesses of a virtue centered approach to moral theory Much less attention has been given to how such an approach bears on issues in applied ethics The essays in this volume apply a virtue centered perspective to a variety of contemporary moral issues and in so doing offer a fresh and illuminating perspective Some of the essays focus on a particular virtue and its application to one or more realms of applied ethics such as temperance and sex or humility and environmental ethics Other chapters focus on an issue in applied ethics and bring several virtues into a discussion of that issue or realm of life such as sport education and business Finally several of the chapters engage relevant psychological research as well as current neuroscience which enhances the strength of the philosophical arguments The Routledge Companion to Theism Charles Taliaferro, Victoria S. Harrison, Stewart Goetz, 2013 There are deep and pervasive disagreements today in universities and colleges and popular culture in general over the credibility and value of belief in God This has given rise to an urgent need for a balanced comprehensive accessible resource book that can inform the public and scholarly debate over theism While scholars with as diverse interests as Daniel Dennett Terry Eagleton Richard Dawkins Jürgen Habermas and Rowan Williams have recently contributed books to this debate theism as a concept remains poorly understood and requires a more thorough and systematic analysis than it has so far received in any single volume The Routledge Companion to Theism addresses this need by investigating theism's history as well as its relationship to inquiry in the sciences social sciences and humanities and to its wider cultural contexts The contents are not confined within the philosophy of religion or even within the more expansive borders of philosophy Rather The Routledge Companion to Theism investigates its subject through the lens of a wide variety of disciplines and explores the ramifications of theism considered as a way of life as well as an intellectual conviction The five parts of the volume indicate its inclusive

scope I What is Theism II Theism and Inquiry III Theism and the Socio Political Realm IV Theism and Culture V Theism as a Way of Life The result is a well ordered and thorough collection that should provide a wide spectrum of readers with a better understanding of a subject that is much discussed but frequently misunderstood As the editors note in their Introduction while stimulating and informing the contemporary debate a key aim of the volume is to open new avenues of inquiry into theism and thereby to encourage further research into this vital topic Comprised of 54 essays by leading scholars in philosophy history theology religious studies political science education and sociology The Routledge Companion to Theism promises to be the most useful comprehensive resource on an emerging subject of interest for students and scholars
