Drawing from 167 examples of decorative needlework primarily samplers and quilts from 114 collections across the United States made by individual women aged forty years and over between 1820 and 1860 this exquisitely illustrated book explores how women experienced social and cultural change in antebellum America The book is filled with individual examples stories and over eighty fine color photographs that illuminate the role that samplers and needlework played in the culture of the time For example in October 1852 Amy Fiske 1785-1859 of Sturbridge Massachusetts stitched a sampler But she was not a schoolgirl making a sampler to learn her letters Instead as she explained The above is what I have taken from my sampler that I wrought when I was nine years old It was wrought on fine cloth and it tattered to pieces My age at this time is 66 years Situated at the intersection of women's history material culture study and the history of aging this book brings together objects diaries letters portraits and prescriptive literature to consider how middle class American women experienced the aging process Chapters explore the physical and mental effects of old age on antebellum women and their needlework technological developments related to needlework during the antebellum period and the tensions that arose from the increased mechanization of textile production and how gift needlework functioned among friends and family members Far from being solely decorative ornaments or functional household textiles these samplers and quilts served their own ends They offered aging women a means of coping of sharing and of expressing themselves These threads of time provide a valuable and revealing source for the lives of mature antebellum women Publication of this book was made possible in part through generous funding from the Coby Foundation Ltd and from the Quilters Guild of Dallas Helena Hibbs Endowment Fund *False River* Paula Morris, 2017-10-30 Riffing on truth lies and secrets this collection uses fiction to explore fact and fact to explore fiction Fictional characters muse upon the truth behind real people non fiction pieces contain short interludes of fiction fiction is written to read like an essay made up elements slip into true accounts These pieces range the world from America to Antwerp to Aotearoa and talk about writers and writing famous figures family members witch burning in Denmark cyclones and numerous pertinent and stimulating topics All brilliantly written each will leave you thinking and desperate to jump back in for more **Catalog of Copyright Entries. The Gendered West Gordon Morris Bakken, Brenda Farrington, 2013-09-13 First Published in 2001 This anthology of western history articles emphasizes the New Western History that emerged in the 1980s and adds to it a heavy dose of legal history a field frequently ignored or misunderstood by the New Western historians From first contact American Indians knew

that Europeans did not understand the gendered nature of America. Confusion regarding the role of women within tribes and bands continued from first contact well into the late nineteenth century. The journal articles that follow give readers a true sense of the gendered West. Racial and ethnic heritage played a role in female experience whether Hispanic, Japanese, or Irish. Women's work was part of western history, but women did not confine themselves to plow handles or brothels. Women were very much a part of most occupations or in the process of breaking down barriers of access. They worked in the fields for wages as well as for family welfare and prosperity. Women demanded access to the professions whether teaching or law, accounting or medicine. The process of eliminating barriers varied in time and space, but the struggle was constant. Yet the story of women in polygamous Utah or Idaho was different and an integral part of the fabric of western history. Because of their beliefs and practices, these women suffered at the hands of the federal government and persevered.
