

Yoga: The Art of Transformation

Sackler Gallery, Washington, DC

by Tanya Roland

A current exhibition at the Sackler Gallery of Art, *Yoga: The Art of Transformation*, is an attempt to capture some of the vast, intricate, and beautiful world of yoga visually. Works from all around India are represented, from Kashmir to Tamil Nadu, from Kerala to Kangra. This large exhibit of sculptures, paintings, illuminations, scrolls, and moving images takes up 8 or 10 rooms. The scope covered is pre-history (we've no real idea how old yoga is, but at least 5000 years), up to today. In a word, yes, it's vast, yet also limited. While it's called the first exhibition of its kind, and granted it's showing what exists visually, it's not necessarily the comprehensive history per se. It's a good first try.

The word yoga basically means union. It is said to have come to our world directly from enlightened beings, also called rishis or naths. Shiva is often considered the Lord of the yoginis and yogis, and he is widely represented in the exhibit in paintings and sculptures. The purpose of the practice and lifestyle is to recognize the inseparability of the small, confusion-bound "I", and the universal enlightened "I". Sentient beings are seen as a microcosm of the macro universe. In the first room of the exhibit is a beautiful, three panel gouache painting from 1823. Each panel is roughly two feet square, and they depict the three aspects of our nature. The Buddhist yogis call these aspects bodies, or *kayas*. The first, our most subtle and vast, primordial unfettered awareness, is shown as an empty golden field. The second shows an enlightened being manifest in their 'enjoyment' body, adorned with ornaments in an enlightened realm, also is shown in a golden field. The third depicts an incarnate awakened being, manifest in our world realm. This realm is depicted as an actual ground (painted in tin) this person is sitting on, with the gold field in space or the background.

Exhibition Catalogue of Turkish Art of the Ottoman Period Esin Atıl, 1973 Yoga - The Art of Transformation Debra Diamond, 2013 **Teaching Contemporary Yoga** Edward Clark, Laurie A. Greene, 2022-03-14 Teaching Contemporary Yoga provides a novel look at how modern yoga is understood practiced and taught globally Utilising perspectives from several academic disciplines the authors offer an analysis of the current state of modern yoga and the possibilities for future experimentation and innovation The authors draw on anthropological performance and embodiment theories to understand yoga practice as a potentially powerful ritual of transformation as well as a cultural product steeped in the process of meaning making They craft a unique analysis that contrasts asana with the largely unexamined philosophy underlying the practice of vinyasa while imagining a vibrant future for the evolution of yoga through excellence in teaching Unlike other writings about yoga the authors offer a critique of the current practice of yoga as both diminished and utilitarian while providing a path to reinvigorating the discipline based on current scientific knowledge and methods for teaching and practice Along with these theoretical perspectives and the analysis of contemporary yoga in the West the authors offer practical applications to address the challenges of teaching yoga in a society where individualism and materialism are core values Open ended exercises in reflection and experimentation offer opportunities for readers to apply what they have learned to their teaching and personal practice This is a vital guide for any yoga oriented scholar teacher or practitioner and is an essential companion for contemporary teacher training The Story of Yoga Alistair Shearer, 2020
