

SINGLE PACKAGE GAS/ELECTRIC UNITS AND SINGLE PACKAGE AIR CONDITIONERS

D3CE / D3CG 180 & 240
(WORLD 50 HZ)

SUNLINE 2000

DCG
Shown

DESCRIPTION

Sunline 2000 units are highly efficient, convertible rooftops. All models have dual refrigerant circuits for efficient part load operation. Although the units are primarily designed for curb mounting on a roof, they can also be slab-mounted at ground level or set on steel beams above a finished roof.

These units are designed and manufactured under ISO 9002 Quality System Certification.

Cooling only, cooling with gas heat and cooling with supplemental electric heat units are available with a wide variety of field-installed accessories to make them suitable for almost every application.

All units are self-contained and assembled on full perimeter base rails. The base rails have holes in the four corners for overhead rigging.

Every unit is completely piped, wired, charged and tested at the factory to simplify the field installation and to provide years of dependable operation. Powder paint cabinets provide an exceptionally durable finish with the 750 hour salt spray process per ASTM-B117 test standard.

All models are available with three different outdoor air damper accessories:

- Single enthalpy economizer
- Differential enthalpy economizer
- Motorized outdoor air intake damper

All models (including those with an economizer) are suitable for either downflow or sideflow duct connections. For downflow duct, remove the sheet metal panels from the supply and return air openings through the base of the unit. For sideflow duct, replace the supply and return air panels on the rear of the unit with a side duct flange accessory.

A fixed outdoor air intake assembly is shipped in the return air compartment of all units. The assembly includes a rain hood with a damper that can be set for 10, 15 or 25% outdoor air. With bottom duct connections, the intake damper assembly should be mounted over the opening in the return air panel.

With horizontal ductwork, it should be mounted on the return air duct.

All supply air blowers are equipped with a belt drive that can be adjusted to meet the exact requirements of the job.

All compressors include crankcase heat and internal pressure relief. Every refrigerant circuit includes an expansion valve, a liquid line filter-drier, a discharge line high pressure switch and a suction line with a freeze-stat and low pressure switch. The unit control circuit includes a 75 VA transformer, a 24-volt circuit breaker and a relay board with two compressor lockout circuits, a terminal strip for thermostat wiring, plus an additional set of pin connectors to simplify the interface of additional field controls.

All gas heat models are built with two heating sections for two equal stages of capacity control. Each section includes a durable heat exchanger with aluminized steel tubes, a redundant gas valve, spark ignition, power venting, an ignition module for 100% shut-off and all of the safety controls required to meet the latest ANSI standards.

The gas supply piping can be routed into the heating compartment through a hole in the base pan of the unit or through a knockout in the piping panel on the front of the unit.

All electric heat models are wired for a single power source and include a bank of nickel chromium elements mounted at the discharge of the supply air blower to provide a high velocity and uniform distribution of air across the heating elements. Every element is fully protected against excessive current and temperature by fuses and two thermal limit switches.

The power supply wiring can be routed into the control box through a threaded pipe connection in the base pan of the unit or through a knockout in the wiring panel on the front of the unit.

Enjoying the Track of Expression: An Emotional Symphony within **York D3cg Service Manual**

In a world taken by screens and the ceaseless chatter of quick conversation, the melodic splendor and psychological symphony produced by the published word often fade in to the background, eclipsed by the constant sound and disruptions that permeate our lives. Nevertheless, located within the pages of **York D3cg Service Manual** a stunning literary prize filled with raw feelings, lies an immersive symphony waiting to be embraced. Constructed by a masterful composer of language, that charming masterpiece conducts readers on an emotional trip, well unraveling the hidden tunes and profound affect resonating within each cautiously crafted phrase. Within the depths with this touching analysis, we can discover the book is key harmonies, analyze its enthralling writing fashion, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
