[Caldecott Connections to Language Arts](#) Shan Glandon, 2000-09-15 Take advantage of the appeal and power of Caldecott award literature to extend and promote learning across the curriculum. In these three volumes, the author demonstrates how to use award-winning books as springboards to science, social studies, and language arts learning in the library and classroom and to expand student awareness and appreciation of illustration techniques. For each Caldecott title, there is background information on the illustrations, curriculum connections, lesson plans, and support materials for teaching. Glandon also integrates Gardner's multiple intelligences with curriculum content. With a flexible discovery approach, these activity units focus on student-centered, experiential, holistic, and authentic learning, and they are ready for instant implementation. Targeted to primary-grade objectives and abilities, the books include an array of individual projects and collaborative ones. They also foster collaborations between library media specialists and classroom teachers. **The Storytelling Classroom** Sherry Norfolk, Jane Stenson, Diane Williams, 2006-09-30 Consisting of a series of essays written by storytellers who work in the classroom as well as teachers who use storytelling in the classroom, this title addresses specific curriculum areas and includes practical, easily replicable lesson plans. Also included is a review and explanation of the current research on the value of storytelling in the classroom in teaching the whole brain using the multiple intelligences and the integration of thinking in the left and right brain. It makes valid connections to educational standards in curriculum areas. Topics addressed are from the dual viewpoints of storytellers and educators. The Storytelling Classroom is an inspiring, practical, and immediately applicable collection of preK through eighth-grade lesson plans by and for teachers and media specialists who use storytelling in the classroom and storytellers who work in the classroom. Each lesson plan is linked to National Standards in Language Arts, Social Studies, Math, or Science and accompanied by an essay which provides a glimpse

of the alchemy that occurs when students teachers and story are brought together student engagement classrooms that are alive with thinking students LEARNING **Curriculum, Assessment, and Instruction for Students with Disabilities** June L.
