Tourism in Latin America

Cases of Success

This book presents ten case studies of success about Latin America tourism. The cases are embedded in a framework describing the economic and cultural foundations of tourism development in the continent. Mexico, Brazil, Chile and Costa Rica are some of the Latin countries which have become examples and models for tourism development, respect for the environment and social inclusion. The book documents some of the best practices, along with an analysis of how these practices helped improving the environmental and social surroundings and how returns on investments has been assessed. Latin America is shown as an excellent example, with the Green Domestic Product of the continent expanding intensely in the tertiary sector (like leisure, hospitality, travel, tourism, entertainment, gastronomy, events and culture and outdoor recreation). This book is a valuable resource both for professionals in the tourism industry and for researchers in tourism management.

Tourism In Latin America Cases Of Success:

Tourism in Latin America Alexandre Panosso Netto, Luiz Gonzaga Godoi Trigo, 2014-09-04 This book presents eleven case studies of success about Latin America tourism. The cases are embedded in a framework describing the economic and cultural foundations of tourism development in the continent. Mexico, Brazil, Chile, and Costa Rica are some of the Latin countries which have become examples and models for touristic development, respect for the environment, and social inclusion. The book showcases some of the best practices along with an analysis of how these projects helped improving the environmental and social surroundings and how return on investments has been ensured. Latin America is shown as an excellent example with the Gross Domestic Product of the continent expanding intensely in the tertiary sector like leisure, hospitality, travel, tourism, entertainment, gastronomy, events, and indoor and outdoor recreation. This book is a valuable resource both for professionals in the tourism industry and for researchers in tourism management. *Tourism Case Studies Latin America Region*

Thiago Allis, Sandro Carnicelli, 2024-11-21 Latin America is a complex mosaic of nations, people, and landscapes with unique cultural, scenic, and economic resources but with no more than 6% of global international tourist arrivals. World Bank 2019. The region hosts several top international destinations such as the Caribbean islands and the sacred city of the Incas, Machu Picchu, Peru. Cities like São Paulo and Mexico City are internationally known for their Meetings, Incentives, Conferences, and Exhibitions (MICE) sector. Galapagos, Ecuador, and Fernando de Noronha, Brazil, are areas of significant ecological importance. However, even if some of the destinations are well known internationally, the region is still seen as an untapped source for tourism at global and regional scales. Moreover, the region is still underrepresented in international tourism literature and content for pedagogical and educational purposes is still limited. This gap needs to be filled to help inform tourism developments and to better educate the next generation. This can help shift students and practitioners away from an overdependence on models and ideas developed and tested in different social and cultural settings that may not be appropriate for a Latin American context. Therefore, this book aims to bring together researchers, students, practitioners, and other agents involved with research, teaching, and the operation of tourism to share their research and work experiences in Latin America in the form of case studies focusing on real-world examples. *Tourism Planning and Development in Latin America*

Carlos Monterrubio, Konstantinos Andriotis, Dimitrios Stylidis, 2020-06-16 Despite the significance of tourism to the economic, social, and environmental structures of Central and South America, little has been documented in the English literature about tourism in this sub-region, which in terms of population size ranks fourth in the world with 652 million inhabitants. The first of its kind, this book focuses exclusively on tourism development, planning, and their impacts in a wide number of Central and South American countries. It covers experiences, challenges, successful and unsuccessful stories, specific cases, and other tourism-related issues of twelve countries in total. Each chapter is authored by scholars who have done extensive research on tourism in the countries covered. **Cultural Tourism in Latin America**
