Toward A New Legal Common Sense Toward A New Legal Common Sense:

Toward a New Legal Common Sense Boaventura de Sousa Santos, 2002-09 The text emphasises a need for reconstruction of legality based on locality nationality and globality

Toward a New Legal Common Sense Boaventura de Sousa Santos, 2002-09-01 There are those who believe that modern society's reliance upon law politics and science to both regulate and emancipate society has reached a crisis point and can no longer provide answers to current social problems *Toward a New Legal Common Sense* engages in a series of sociological analyses of law in order to illustrate the need for a profound theoretical reconstruction of the notion of legality based on locality nationality and globality In this way the author shows how developments including supranational organisations such as the European Union and international human rights law can be given their proper place in the sociology of law and suggests a new set of social structures that might sustain the emancipatory elements that have disappeared from modern society This 2002 edition of a title originally published by Routledge New York is part of the acclaimed Law in Context Series whose aim is to develop broad interdisciplinary perspectives on law *Toward a New Legal Common Sense* is written for students taking law and globalisation courses and political science philosophy and sociology students doing optional subjects

Toward a New Common Sense Boaventura de Sousa Santos, 1995 Considering the paradigm of modernity's three key concepts law power and science Santos argues for extensive epistemological shifts in the field of critical social thought He traces the historical process by which both modern science and modern law lost the balance between social regulation and social emancipation inscribed originally in the paradigm of modernity Pleading for a new dialogic rhetoric and moving back and forth between solid empirical work and highly innovative and far reaching theorizing he deals with diverse topics

The Law of Contract Roger Brownsword, 2003 The second edition of this successful work brings the coverage up to date with all key developments and relevant changes since 1998 It provides a comprehensive and authoritative treatment of all aspects of the law of contract It differs to other texts on the topic by offering a fresh new approach Analysing the current law it also highlights possible future developments Accessible and authoritative it is designed specifically to meet the needs of the modern practitioner

Global Governance and the Quest for Justice - Volume II SORCHA MacLeod, 2006-11-06 Against the backdrop of perceived abuse of corporate power alleged violations of human rights degradation of the environment abuse of labor Enron style financial scandals and the like the papers in the first part of this collection examine the nature and function of the corporation as well as the way in which we should understand corporate governance and the power of transnational corporations Central to the

question is the issue of accountability as well as the questions of social and environmental responsibility The authors ask whether corporations should be more accountable relative to the broader public interest and suggest that public law approaches to accountability may offer a way forward The second part of the book considers the most appropriate regulatory locus local regional or international and the most effective form of response to the deficit in corporate responsibility and the abuse of corporate power For example are transnational corporations most effectively regulated internationally regionally or locally

Towards a New European Jus Commune Antonio Gambaro, Alfredo Mordechai Rabello, 1999 Susan Haack Cornelis De Waal, 2007 In this critical appraisal of the work of philosopher Susan Haack editor Cornelis de Waal has assembled sixteen original essays from outstanding international contributors together with responses from Haack on the points raised The contributors address most of Haack's key publications from her early writings on metaphysics to her most recent work in the philosophy of science and the philosophy of law Topics include the revisability of logic the role of emotion in reasoning scientific integrity postmodernism and the law the relation of science to religion preferential hiring multiple aspects of Haack's foundherentism and her crossword analogy The volume also includes an extensive interview with Haack which traces the development of her thought and a complete bibliography of her work For anyone seeking a better understanding of the work of this important philosopher this unique collection offers many invaluable insights

The Violence of Normal Times Kalpana Kannabirān, 2005 This volume looks at the experience and articulation of violence against women in relation to feminist debates and organising on the issue and the positive negative responses to that articulation particularly from the standpoint of law and the institutional apparatuses of the state Its several essays focus on everyday settings from justice dispensed by traditional authorities to modern courtrooms domestic spaces a home for mentally disabled women in Pune a factory in Tamil Nadu Moving from the routine to the extraordinary the essays analyse the spectrum of violence against women that covers witch hunting in Adivasi communities structural adjustment programmes and economic violence against sexually marginalised groups and against women of religious and ethnic minorities Read together they expose the extent of systemic violence against women in India a violence so routine that everyday forms of it slide into the gross and macabre in a seamless continuum
