Political Rationale and International Consequences of the War in Libya Dag Henriksen, Ann Karin Larssen, 2016-04-14 Political Rationale and International Consequences of the War in Libya focuses on the international intervention in Libya in 2011 and tries to answer two broad questions 1 What was the political rationale for the various actors to proceed as they did in the lead up and conduct of the military intervention in Libya 2 What are the consequences of the UN authorized military intervention in Libya R2P was the public raison d'être of the war and an important legitimizing factor of the intervention Still the humanitarian situation was a necessary but not in and by itself an adequate precondition for intervention A number of factors coalesced to enable the intervention While the humanitarian situation triggered the intervention in reality a variety of national interests governed the approach by the various international actors and more often than not these motives were not rooted in the particular circumstances in Libya The book offers a combination of unique perspectives While the perspectives of the US France and the UK on the Libyan Crisis War have been well documented the Arabic and Scandinavian political and military dynamics have been much less so While the perspectives of NATO the UN and R2P have been debated the view from the Arab League and African Union AU have been less in focus The volume redresses that imbalance and offers the most broad ranging analysis yet of a key moment in recent international relations

The Maghreb Since 1800 Knut S. Vikør, 2024-11-01 The Maghreb the region that today encompasses Morocco Algeria Tunisia and Libya is a region apart within the larger Muslim and Arab world Today the focus of popular uprisings for democracy and participation it underwent long periods of colonisation and anti colonial nationalist resistance both peaceful

and militant To understand the nature of today's developments in North Africa we need fully to appreciate the tumultuous history of the region and how its four discrete countries followed different trajectories some marked by a continuity of social and political structures in both the colonial era and as independent states while others were marked by sharp ruptures and violent struggles These historical differences are still visible in the current era and tell us much about the societies in question This short history of the Maghreb surveys its development from the coming of Islam to the present day but with greatest emphasis on the modern period from the early nineteenth century onwards It follows the French protectorates Morocco and Tunisia and how their nationalist movements forged the independent states that followed and it chronicles the wars of resistance and liberation in Algeria and Libya and how these conflicts also marked their independence with a long running civil war in the former and the recent uprising against the Gaddafi regime in the latter

Unreliable Watchdog Ted Galen Carpenter, 2022-11-29 Freedom of press is a cornerstone of our democratic political system But reporters pundits and editors face intense pressure to serve as propagandists rather than journalists in their coverage of U S foreign policy Too many members of the news media seem unable to make that distinction and play their proper role as watchdogs for the American people regarding possible government incompetence or misconduct Since World War II America has become a garrison state always prepared for armed conflict and the conflating of journalism and propaganda has grown worse even in situations that do not involve actual combat for the United States That behavior increasingly constrains and distorts the public's consideration of Washington's role in the world In *Unreliable Watchdog* Ted Galen Carpenter focuses on the nature and extent of the American news media's willingness to accept official accounts and policy justifications too often throwing skepticism aside He takes readers through an examination of the media's performance with respect to the Vietnam War the

Persian Gulf War the conflicts in the Balkans the prelude to the Iraq War the civil wars in Libya and Syria and Washington's post Cold War relations with both Russia and China The analysis explores why most journalists as well as social media platforms seem willing to collaborate with government officials in pushing an activist foreign policy even when tactics or results have been questionable disappointing or even disastrous Unreliable Watchdog jump starts a badly needed conversation about how the press must improve its coverage of foreign policy and national security issues if it is to serve its proper role for the American people
