Everyday Lifestyles and Sustainability Fabricio Chicca, Brenda Vale, Robert Vale, 2018-04-09 The impact of humanity on the earth overshoots the earth's bio capacity to supply humanity's needs meaning that people are living off earth's capital rather than its income. However, not all countries are equal and this book explores why apparently similar patterns of daily living can lead to larger and smaller environmental impacts. The contributors describe daily life in many different places in the world and then calculate the environmental impact of these ways of living from the perspective of ecological and carbon footprints. This leads to comparison and discussion of what living within the limits of the planet might mean. Current footprints for countries are derived from national statistics and these hide the variety of impacts made by individual people and the choices they make in their daily lives. This book takes a bottom up approach by calculating the footprints of daily living. The purpose is to show that small changes in behaviour now could avoid some very challenging problems in the future. Offering a global perspective on the question of sustainable living, this book will be of great interest to anyone with a concern for the future as well as students and researchers in environmental studies, human geography and development studies.

Autocar & Motor, 1993-10 The Autocar, 1987 *Drum*, 2006 **Conspicuous Consumption in Africa** Ilana van Wyk, Deborah Posel, 2019-05-01 A collection of essays examining cultures of consumption on the African continent. From early department stores in Cape Town to gendered histories of sartorial success in urban Togo, contestations over expense accounts at an apartheid state enterprise, elite wealth and political corruption in Angola and Zambia, the role of popular religion in the political intransigence of Jacob Zuma, funerals of big men in Cameroon, youth cultures of consumption in Niger and South Africa, queer consumption in Cape Town, middle class food consumption in Durban and the consumption of luxury handcrafted beads, this collection of essays explores the ways in which conspicuous consumption is foregrounded in various African contexts and historical moments. The essays in *Conspicuous Consumption in Africa* put Thorstein Veblen's concept under robust critical scrutiny, delving into the pleasures, stresses and challenges of consuming in its religious, generational, gendered and racialised aspects, revealing conspicuous consumption as a layered set of practices, textures and relations. This volume shows how central and revealing conspicuous consumption can be to fathoming the history of Africa's projects of modernity and their global lineages and legacies. In its grounded up close case studies, it is likely to feed into current public debates on the nature and future of African societies, South African society in particular. *A Principled Psychopath* Jon Lucas Grant, 2013-06-18 *A Principled Psychopath* Set late in the 20th century, moving between the UK, Luxembourg, Russia, Africa and the United States, *A Principled Psychopath* explores the role of two extraordinary characters, Nicholas and Anna, as they use their superior intellects to manipulate the world around them, ruthlessly pushing the boundaries of science and power, politics to control and respond to the problems challenging the future of humanity.
