Anti-Imperialist Modernism Benjamin Balthaser, 2016 A unique excavation of how U.S. cross border anti imperialist movements shaped cultural modernism

Eloquence Embodied Céline Carayon, 2019-08-29 Taking a fresh look at the first two centuries of French colonialism in the Americas this book answers the long standing question of how and how well Indigenous Americans and the Europeans who arrived on their shores communicated with each other French explorers and colonists in the sixteenth century noticed that Indigenous peoples from Brazil to Canada used signs to communicate The French in response quickly embraced the nonverbal as a means to overcome cultural and language barriers Céline Carayon's close examination of their accounts enables her to recover these sophisticated Native practices of embodied expressions In a colonial world where communication and trust were essential

but complicated by a multitude of languages intimate and sensory expressions ensured that French colonists and Indigenous peoples understood each other well Understanding in turn bred both genuine personal bonds and violent antagonisms As Carayon demonstrates nonverbal communication shaped Indigenous responses and resistance to colonial pressures across the Americas just as it fueled the imperial French imagination Challenging the notion of colonial America as a site of misunderstandings and insurmountable cultural clashes Carayon shows that Natives and newcomers used nonverbal means to build relationships before the rise of linguistic fluency and crucially well afterward **The Pain of Unbelonging** Sheila Collingwood-Whittick, 2007 Beyond the obvious and enduring socio economic ravages it unleashed on indigenous cultures white settler colonization in Australasia also inflicted profound damage on the collective psyche of both of the communities that inhabited the contested space of the colonial world The acute sense of alienation that colonization initially provoked in the colonized and colonizing populations of Australia and New Zealand has recent studies indicate developed into an endemic existential pathology Evidence of the psychological fallout from the trauma of geographical deracination cultural disorientation and ontological destabilization can be found not only in the state of anomie and self destructive patterns of behaviour that now characterize the lives of indigenous Australian and Maori peoples but also in the perpetually faltering identity discourse and cultural rootlessness of the present descendants of the countries Anglo Celtic settlers It is with the literary expression of this persistent condition of alienation that the essays gathered in the present volume are concerned Covering a heterogeneous selection of contemporary Australasian literature what these critical studies convincingly demonstrate is that more than two hundred years after the process of colonisation was set in motion the experience that Germaine Greer has dubbed the pain of unbelonging continues unabated constituting a dominant thematic concern in the writing produced today by Australian and New Zealand authors *Great Plains Quarterly*, 2009 The Queerness of Native American Literature Lisa Tatonetti, 2014-11-30 With a new and more inclusive perspective for the growing field of queer Native studies Lisa Tatonetti provides a genealogy of queer Native writing after Stonewall Looking across a broad range of literature Tatonetti offers the first overview and guide to queer Native literature from its rise in the 1970s to the present day In *The Queerness of Native American Literature* Tatonetti recovers ties between two simultaneous renaissances of the late twentieth century queer literature and Native American literature She foregrounds how Indigeneity intervenes within and against dominant interpretations of queer genders and sexualities recovering unfamiliar texts from the 1970s while presenting fresh cogent readings of well known works In juxtaposing the work of Native authors including the longtime writer activist Paula Gunn Allen the first contemporary queer Native writer Maurice Kenny the poet Janice Gould the novelist Louise Erdrich and the filmmakers Sherman Alexie Thomas Bezucha and Jorge Manuel Manzano with the work of queer studies scholars Tatonetti proposes resourceful interventions in foundational concepts in queer studies while also charting new directions for queer Native studies Throughout she argues that queerness has been central to Native American

literature for decades showing how queer Native literature and Two Spirit critiques challenge understandings of both Indigeneity and sexuality
