Understanding Women With Ad Or Hd:

Understanding Women with AD/HD Kathleen G. Nadeau, Patricia O. Quinn, 2002 Understanding Women with AD HD is designed to be a practical and readable guide for women at any age with special chapters focusing on different stages of life

Women with Attention Deficit Disorder Sari Boone's Solden, 2012-07-15 Women with Attention Deficit Disorder psychotherapist Sari Solden's groundbreaking book explains how every year millions of withdrawn little girls and chronically overwhelmed women go undiagnosed with Attention Deficit Disorder because they don't fit the stereotypical profile they're not fast talking hyperactive or inattentive and they are not male This pioneering book explores treatment and counseling options and uses real life case histories to examine the special challenges women with AD HD face such as the shame of not fulfilling societal expectations Solden explains that AD HD affects just as many women as men and often results in depression disorganization anxiety and underachievement Included in this revised edition is a brand new chapter on friendship challenges for women with AD HD Three empowering steps restructuring one's life renegotiating relationships and redefining self image help women take control of their lives and enjoy success on their own terms Sari Solden has used her personal and professional experience to shine some light into the dark closet inhabited by far too many ADD women She empowers ADD women by validating their experience as worthwhile human beings who struggle with serious organizational problems in many areas of their lives Kate Kelly and Peggy Ramundo authors of You Mean I'm Not Lazy Stupid or Crazy

The Neuropsychology of Women Elaine Fletcher-Janzen, 2008-12-19 The Diversity in Clinical Neuropsychology series is designed to highlight cultural and moderator variables involved in the study of brain behavior relationships Historically the study of psychology and neuropsychology has focused on the male brain being the standard to which all or most variables are considered The study of sex differences is perhaps the most provoking and far reaching aspect of diversity because frequently women have unique assessment and treatment needs For example frontal lobe functioning tends to be more contextual for women than for men These brain functions have behavioral counterparts that directly relate to how interventions may be tailor made to suit the female rather than male patient The goal in neuropsychology is always to improve diagnosis and treatment outcomes and a cohesive summary of the neuropsychology of the female brain would raise awareness and cultural competency of clinicians in neuropsychology Authors will focus on sex differences in the neuropsychological cognitive and development literature ethnic and socioeconomic variables affecting diagnosis and treatment of women and social emotional and behavioral manifestations of neuropsychological sex differences 100
