War and Geopolitics in Interwar Manchuria Chi Man Kwong, 2017-03-06 In *War and Geopolitics in Interwar Manchuria* Kwong Chi Man revisits the civil wars in China 1925 1928 from the perspective of the often overlooked warlords who fought against the joint forces of the Nationalist and Communist parties In particular this work focuses on Zhang Zuolin the leader of the Fengian Clique who was sometimes seen as the representative of the Japanese interest in Manchuria Using primary and secondary sources from China Japan the United Kingdom and the United States this work tries to revisit the wars during the period from international political military and economic financial perspectives It sheds new light on Zhang Zuolin s decision to fight against the Nationalists and the Communists and offers an alternative explanation to the Nationalists temporary victory by revealing the central importance of geopolitics in the civil wars in China during the interwar period

Nigerian Security Manu Lekunze, 2025-11-27 Despite Nigeria s critical position in African security academics and policymakers globally often overlook the gravity of its security challenges This book examines Nigeria s survival and its implications on international security It uses the Nigerian case to contribute to a broader understanding of how great powers relate with small powers such as most African states The Nigerian case contributes to the body of literature that integrates small minor powers into realist studies in International Relations The empirical and theoretical contributions offer insights for developing more effective policies to address the security challenges outlined in the book

The Writers Directory, 2013 **Strategic Studies Quarterly**, 2008 **Recent Themes in Military History** Donald A. Yerxa, 2008 This book offers an inviting survey of recent developments in military studies from leading voices in the field Deemed the New York Review of Books for history Historical Speaking has emerged as one of the most unusual historical publications in recent years actively seeking out contributions from a pantheon of leading voices in historical discourse from both inside and outside academia Recent Themes in Military History represents some of the best writing on military history to appear in *Historically Speaking* in the past five years Using multiple formats forums interviews and individual essays this collection provides contrasting views on such topics in military history as the

existence and function of military revolutions in the past and present the experience of soldiering and combat the particularly violent and gruesome nature of twentieth century warfare and projections of nature of future wars The ebb and flow of discourse between contributors also illustrates how the study of history is an ongoing conversation wherein discovery and debate lead to deeper understanding and development of fresh opportunities for further inquiry The contributors are Andrew J Bacevich Eric Bergerud Jeremy Black Max Boot Jeffrey Clarke Antulio J Echevarria II Niall Ferguson Colin S Gray T X Hammes Victor Davis Hanson Max Hastings Richard Holmes Peter Paret Geoffrey Parker and Dennis Showalter

Schools for Strategy Colin S. Gray,2009 All would be strategists would benefit by some formal education However for education in strategy to be well directed it needs to rest upon sound assumptions concerning the eternal nature yet ever shifting character meaning and function of strategy as well as the range of behaviors required for effective strategic performance The author emphasizes the necessity for strategic education to help develop the strategic approach the way of thinking that can solve or illuminate strategic problems He advises that such education should not strive for a spurious relevance by presenting a military variant of current affairs The author believes that the strategist will perform better in today s world if he has mastered and can employ strategy s general theory *After Iraq* Colin S. Gray,2009 A sustainable national security strategy is feasible only when directed by a sustainable national security policy In the absence of policy guidance strategy has to be meaningless The only policy that meets both the mandates of American culture and the challenges of the outside world is one that seeks to promote the necessary mission of guarding and advancing world order Dr Colin Gray considers and rejects a policy that would encourage the emergence of a multipolar structure for global politics He argues that multipolarity not only would fail to maintain order it would also promote conflict among the inevitably rival great powers In addition he suggests that Americans culturally are not comfortable with balance of power politics and certainly would not choose to promote the return of such a system The monograph identifies the various pieces of the puzzle most relevant to national security strategy surfaces the leading assumptions held by American policymakers and strategists considers alternative national security policies and specifies the national security strategy Dr Gray concludes that America has much less choice over its policy and strategy than the public debate suggests He warns that the country s dominant leadership role in global security certainly will be challenged before the century is old p iii
