Zapotec Women Gender Class And Ethnicity In Globalized Oaxaca:

Zapotec Women Lynn Stephen, 2005-10-17 A classic study of Zapotec women weavers and their reactions to global capitalism

Native Peoples of the World Steven L. Danver, 2015-03-10 This work examines the world's indigenous peoples, their cultures, the countries in which they reside, and the issues that impact these groups

Disruptive Voices and the Singularity of Histories Regna Darnell, Frederic W. Gleach, 2019-11-01 Histories of Anthropology Annual presents diverse perspectives on the discipline's history within a global context with a goal of increasing awareness and use of historical approaches in teaching, learning, and conducting anthropology. The series includes critical, comparative, analytical, and narrative studies involving all aspects and subfields of anthropology. Volume 13, Disruptive Voices and the Singularity of Histories, explores the interplay of identities and scholarship through the history of anthropology, with a special section examining fieldwork predecessors and indigenous communities in Native North America. Individual contributions explore the complexity of women's history, indigenous history, national traditions, and oral histories to juxtapose what we understand of the past with its present continuities. These contributions include Sharon Lindenburger's examination of Franz Boas and his navigation with Jewish identity; Kathy M. Closkey's documentation of Navajo weavers and their struggles with cultural identities and economic resources and demands; and Mindy Morgan's use of the text of Ruth Underhill's Oodham study to capture the voices of three generations of women ethnographers. Because this work bridges anthropology and history, a richer and more varied view of the past emerges through the meticulous narratives of anthropologists and their unique fieldwork, ultimately providing competing points of access to social dynamics. This volume examines events at both macro and micro levels, documenting the impact large-scale historical events have had on particular individuals and challenging the uniqueness of a single interpretation of the same facts.

Zapotec Women Lynn Stephen, 2005-10-17 A classic study of Zapotec women weavers and their reactions to global capitalism

The Value of Aesthetics Alanna Cant, 2019-09-01 Unlike many other handicrafts in the Mexican state of Oaxaca, which have long cultural and historical trajectories, Oaxacan woodcarving began in the second half of the twentieth century and has always been done for the commercial market. In *The Value of Aesthetics*, Alanna Cant explores how one family's workshop in the village of San Mart n Tilcajete has become the most critically and economically successful, surpassing those of neighbors who use similar materials and techniques. The dominance of this family is tied to their ability to produce a new aesthetic that appeals to three key economies of culture: the tourist market for souvenirs, the national market for traditional Mexican artesan as, and the international market for indigenous art. Offering a new analytical model by which anthropologists can approach visual aesthetics and conceptualize the power of artworks as socially active objects, *The Value of Aesthetics* shows how aesthetic practices produce and redefine social and political relationships. By investigating the links between aesthetics and issues of production, authorship, ownership, and identity, Cant

shows aesthetic change to be a process that ultimately repackages everyday life into commodified objects in Oaxaca *The Oxford Encyclopedia of Women in World History* Bonnie G. Smith, 2008 The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played throughout world history The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe Historians have investigated womens daily lives in virtually every region and have researched the leadership roles women have filled across time and region They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes The Encyclopedia contains over 1 250 signed articles arranged in an A Z format for ease of use The entries cover six main areas biographies geography and history comparative culture and society including adoption abortion performing arts organizations and movements such as the Egyptian Uprising and the Paris Commune womens and gender studies and topics in world history that include slave trade globalization and disease With its rich and insightful entries by leading scholars and experts this reference work is sure to be a valued go to resource for scholars college and high school students and general readers alike **The Latin Americanist**, 2006
