Thomas Jefferson And The Stony Mountains Exploring The West From Monticello:

Thomas Jefferson & the Stony Mountains Donald Dean Jackson, Donald Jackson, 1993 Reprint of the U of Illinois Press edition of 1981 which is distinguished by its inclusion in BCL3 Thomas Jefferson & the Stony Mountains Donald Jackson, 1993 *The Papers of Thomas Jefferson, Volume 25* Thomas Jefferson, 2018-06-05 The dramatic escalation in the conflict between Thomas Jefferson and Alexander Hamilton to determine the future course of the new American nation is the main theme of this volume Under pressure from other Republicans Jefferson decides to continue as Secretary of State instead of retiring to Monticello at the end of President Washington's first term At the same time he begins to play a more active role as a Republican party leader involving himself secretly in a major effort by House Republicans to have Hamilton dismissed from office by censuring his management of public finances France's declaration of war on Great Britain and the Netherlands leads Jefferson into a serious conflict with Hamilton over how to protect American neutrality in the face of the widening European war After persuading Washington to preserve the treaties of alliance and commerce with France Jefferson must then confront the first in a series of French violations of American neutrality that will sorely test the relationship between the two republics Testifying to the catholicity of Jefferson's interests this volume also deals with his efforts to promote a voyage of western exploration by the noted French botanist Andr Michaux his observation of the first manned balloon flight in America by the celebrated French aeronaut Jean Pierre Blanchard and his concern for expediting work on the new national capital *Encyclopedia of the Lewis and Clark Expedition* Elin Woodger, Brandon Toropov, 2014-05-14 Provides facts and information about the travels of Meriwether Lewis and William Clark and their Corps of Discovery and its importance in relation to Native Americans and the westward expansion in the United States **Undaunted Courage** Stephen E. Ambrose, 2011-11 In this sweeping adventure story Stephen E Ambrose the bestselling author of D Day presents the definitive account of one of the most momentous journeys in American history Ambrose follows the Lewis and Clark Expedition from Thomas Jefferson's hope of finding a waterway to the Pacific through the heart stopping moments of the actual trip to Lewis' lonely demise on the Natchez Trace Along the way Ambrose shows us the American West as Lewis saw it wild awesome and pristinely beautiful Undaunted Courage is a stunningly told action tale that will delight readers for generations In 1803 President Thomas Jefferson selected his personal secretary Captain Meriwether Lewis to lead a voyage up the Missouri River to the Rockies over the mountains down the Columbia River to the Pacific Ocean and back Lewis was the perfect choice He endured incredible hardships and saw incredible sights including vast herds of buffalo and Indian tribes that had had no previous contact with white men He and his partner Captain William Clark made the first map of the trans Mississippi West provided invaluable scientific data on the flora and fauna of the Louisiana Purchase territory and established the American claim to Oregon Washington and Idaho Ambrose has pieced together previously unknown information about weather terrain and medical knowledge at the time to provide a colorful and realistic backdrop for the

expedition Lewis saw the North American continent before any other white man Ambrose describes in detail native peoples weather landscape science everything the expedition encountered along the way through Lewis's eyes Lewis is supported by a rich variety of colorful characters first of all Jefferson himself whose interest in exploring and acquiring the American West went back thirty years Next comes Clark a rugged frontiersman whose love for Lewis matched Jefferson's There are numerous Indian chiefs and Sacagawea the Indian girl who accompanied the expedition along with the French Indian hunter Drouillard the great naturalists of Philadelphia the French and Spanish fur traders of St Louis John Quincy Adams and many more leading political scientific and military figures of the turn of the century This is a book about a hero This is a book about national unity But it is also a tragedy When Lewis returned to Washington in the fall of 1806 he was a national hero But for Lewis the expedition was a failure Jefferson had hoped to find an all water route to the Pacific with a short hop over the Rockies Lewis discovered there was no such passage Jefferson hoped the Louisiana Purchase would provide endless land to support farming but Lewis discovered that the Great Plains were too dry Jefferson hoped there was a river flowing from Canada into the Missouri but Lewis reported there was no such river and thus no U S claim to the Canadian prairie Lewis discovered the Plains Indians were hostile and would block settlement and trade up the Missouri Lewis took to drink engaged in land speculation piled up debts he could not pay made jealous political enemies and suffered severe depression High adventure high politics suspense drama and diplomacy combine with high romance and personal tragedy to make this outstanding work of scholarship as readable as a novel

Virginia's Western Visions Leslie Scott Philyaw, 2004 Once all the world was Virginia an exaggerated truism to be sure but in the early eighteenth century there seemed no limit on the Old Dominion's possibility for growth particularly in the eyes of the state's Tidewater elite Wealthy tobacco barons monopolized thousands of acres along Virginia's frontier and early leadership including William Byrd Thomas Jefferson and George Washington saw the generous possibilities in the expanse of lands to their west In 1705 Virginia planter and historian Robert Beverly confidently foresaw the day when Virginia's settlements would reach the California Sea In *Virginia's Western Visions* L Scott Philyaw examines the often tumultuous history of Virginia's westward expansion Land the foundation to tobacco cultivation and slavery obsessed early Virginians Land acquisition was also a necessary step in dispossessing Virginia's native inhabitants replacing them with Europeans and Africans The relationship between Virginia's Tidewater elite and the hinterland was never simple however The backcountry's economic potential was undeniable as was the possibility for colonization but elites feared the threat of Native American nations and the western border was consistently a source of unrest For many English colonists the inland wilderness was terrifying and Philyaw argues that attitudes toward the different peoples of the frontier Native Americans French Catholic villagers and German and Ulster Scot immigrants shed light on the cultural and ethnic assumptions of the architects of the American republic By the early nineteenth century the optimism of the Revolutionary generation had faded New western states competed with Virginia for markets settlers and investments and

wealthy planters began abandoning the Old Dominion taking their portable slave wealth with them As the War of Independence came to an end an independent Virginia actually began losing territory the war weary and impoverished state could no longer control the western lands its leadership had worked so tirelessly to acquire Leaders now turned to the new national government to accomplish their aims of creating a series of western states that would share Virginia s interests They failed and in the antebellum era Virginia s elite more often allied with states to the south rather than those that were once part of the Old Dominion From the earliest settlement of the area Virginians wrestled with both the political and cultural meaning of Virginia By examining the changing attitudes toward the early West Virginia s *Western Visions* offers a fascinating glimpse into the dreams of the Old Dominion s early leaders the challenges that faced them and their vision for Virginia s future L Scott Philyaw is associate professor of history at Western Carolina University He is a contributor to *After the Backcountry Rural Life in the Great Valley of Virginia 1800 1900* and his articles and reviews have appeared in the *Virginia Magazine of History and Biography* the *Journal of the Early Republic* and others

Jefferson John B. Boles, 2017-04-25 From an eminent scholar of the American South the first full scale biography of Thomas Jefferson since 1970 Not since Merrill Peterson s *Thomas Jefferson and the New Nation* has a scholar attempted to write a comprehensive biography of the most complex Founding Father In *Jefferson* John B Boles plumbs every facet of Thomas Jefferson s life all while situating him amid the sweeping upheaval of his times We meet Jefferson the politician and political thinker as well as Jefferson the architect scientist bibliophile paleontologist musician and gourmet We witness him drafting of the Declaration of Independence negotiating the Louisiana Purchase and inventing a politics that emphasized the states over the federal government a political philosophy that shapes our national life to this day Boles offers new insight into Jefferson s actions and thinking on race His Jefferson is not a hypocrite but a tragic figure a man who could not hold simultaneously to his views on abolition democracy and patriarchal responsibility Yet despite his flaws Jefferson s ideas would outlive him and make him into nothing less than the architect of American liberty

Hunger for the Wild Michael L. Johnson, 2007 Americans have had an enduring yet ambivalent obsession with the West as both a place and a state of mind Michael L Johnson considers how that obsession originated how it has determined attitudes toward and activities in the West and how it has changed over the centuries

The American West, 1981

Nation of Nations James West Davidson, 2004-07

Big Sky Rivers Robert Kelley Schneiders, 2003 To frame his story Schneiders goes back to the nineteenth century journals of fur traders and settlers and in the record of flora fauna floods and human activity he finds evidence of rapid and disruptive change Bison once had the greatest influence on the land and Schneiders depicts an original bison and Indian trail networks on which were overlaid the first torts and towns and then the railroads highways and reservoirs that reconfigured the region forever
