Unholy Wars: Afghanistan, American and International Terrorism John K. Cooley, 2001

America's War against Global Jihad William R. Nester, 2018-03-06 A specter haunts America the specter of Global Jihad Islamic Holy War This specter was never more horrific than on September 11 2001 when nineteen fanatics hijacked four jetliners and used them as guided missiles to destroy the twin World Trade Towers damage the Pentagon murder nearly 3 000 people and cause as much as several hundred billion dollars worth of direct and indirect damage to New York City and the national economy But Jihadists have periodically attacked Americans ever since November 1979 when mobs shouting death to America overran the American embassy in Tehran and held 52 officials hostage for 444 days President George W Bush responded to the September 11 atrocities by declaring a global war on terror Now in its second decade that war has cost the United States thousands of lives and trillions of dollars Americans are haunted by horrific televised images from across a swath of the Muslim world of bomb blasted cities hundreds of slaughtered bodies thousands of refugees huddled in squalid camps and American journalists in orange jump suits kneeling in the desert before the black robed and masked men who will behead them Americans increasingly question whether the global war on terror has been worth those costs for their own nation and the lands where it is fought This book analyzes America's crusade against Jihadism The key related questions it addresses are these Looking back what were the successes and failures of Washington's counter Jihadist strategy before and after September 11 Looking ahead should Americans stay the course or cut their losses in Iraq Afghanistan and elsewhere Was the catastrophic September 11 attack a one time event or could its equivalent or worse in death and destruction happen again Renowned Harvard professor Samuel Huntington asserted that The underlying problem for the West is not Islamic fundamentalism it is Islam a different civilization whose people are convinced of the superiority of their culture and are obsessed with the inferiority of their power Is that true Just what of

Muhammad's words and deeds if any justifies the barbarism of al Qaeda Islamic State and other Jihadists Finally just how corporeal is that specter of global Jihad to the United States A startling surprise awaits the reader in the final chapter as acclaimed expert William Nester weighs the specter of global Jihad against an array of other national security threats

Hubris, Self-Interest, and America's Failed War in Afghanistan Thomas P. Cavanaugh, 2015-07-22 This book describes the conduct of the US led post 9 11 war in Afghanistan Adopting a long term perspective it argues that even though Washington initially had an opportunity to achieve its security goals and give Afghanistan a chance to enter a new era it compromised any possibility of success from the very moment it let bin Laden escape to Pakistan in December 2001 and found itself locked in a strategic overreach Given the bureaucratic and rhetorical momentum triggered by the war on terror in America the Bush Administration was bound to deploy more resources in Afghanistan sooner or later despite its focus on Iraq The need to satisfy unfulfilled counter terrorism objectives made the US dependent on Afghanistan's warlords which compromised the country's stability and tarnished its new political system The extension of the US military presence made Washington lose its leverage on the Pakistan army leaders who aware of America's logistical dependency on Islamabad supported the Afghan insurgents their historical proxies more and more openly The extension of the war also contributed to radicalize segments of the Afghan and Pakistani populations destabilizing the area further In the meantime the need to justify the extension of its military presence influenced the US led coalition into proclaiming its determination to democratize and reconstruct Afghanistan While highly opportunistic the emergence of these policies proved both self defeating and unsustainable due to an inescapable collision between the US led coalition's inherent self interest hubris limited knowledge limited attention span and limited resources and on the other hand Afghanistan's inherent complexity As the critical contradictions at the very heart of the campaign increased with the extension of the latter's duration scale and cost America's leaders entrapped in path dependence lost their strategic flexibility Despite debates on troops resource allocation and more sophisticated doctrines they repeated the same structural mistakes over and over again The strategic overreach became self sustaining until its costs became intolerable leading to a drawdown which has more to do with a pervasive sense of failure than with the accomplishment of any noble purpose or strategic breakthrough

Terrorism and Global Security Ann E. Robertson, 2010-06-23 Presents a guide to the issues of global security and terrorism including primary sources important documents research tools organizations and notable persons

The Failure of a Pseudo-Democratic State in Afghanistan Francisco José Berenguer López, Juan Ignacio Castien Maestro, 2024-09-13 This edited volume provides a multidisciplinary analysis of the failure of democratic state building in Afghanistan Encompassing insights from diverse perspectives and different theoretical viewpoints most importantly those of Afghan nationals the chapters address complex issues including the extent of global hegemonic power the efficacy of nation building strategies the clash between modernization and cultural legacies and the intricate task of establishing enduring institutions amid pervasive clientelist networks The volume is divided

into sections addressing a key aspect of the situation state institutions and society insecurity and corruption social and economic development women s rights Drawing crucial lessons from a turbulent past to inform and guide future endeavors towards a stable prosperous Afghanistan this volume will be of interest to researchers and students of Middle East politics peace and conflict studies security studies development history and sociology **Cocaine, Death Squads, and the War on Terror** Oliver Villar,Drew Cottle,2011-11-01 Since the late 1990s the United States has funneled billions of dollars in aid to Colombia ostensibly to combat the illicit drug trade and State Department designated terrorist groups The result has been a spiral of violence that continues to take lives and destabilize Colombian society This book asks an obvious question are the official reasons given for the wars on drugs and terror in Colombia plausible or are there other deeper factors at work Scholars Villar and Cottle suggest that the answers lie in a close examination of the cocaine trade particularly its class dimensions Their analysis reveals that this trade has fueled extensive economic growth and led to the development of a narco state under the control of a narco bourgeoisie which is not interested in eradicating cocaine but in gaining a monopoly over its production The principal target of this effort is the Revolutionary Armed Forces of Colombia FARC who challenge that monopoly as well as the very existence of the Colombian state Meanwhile U S business interests likewise gain from the cocaine trade and seek to maintain a dominant imperialist relationship with their most important client state in Latin America Suffering the brutal consequences as always are the peasants and workers of Colombia This revelatory book punctures the official propaganda and shows the class war underpinning the politics of the Colombian cocaine trade The United States and NATO Since 9/11 Ellen Hallams,2009-12-04 This book examines US attitudes to and perspectives on the transatlantic alliance with a particular focus on US NATO relations since 9 11 *Insecurity Communities of South Asia and the Middle East* Majid Sharifi,2020-11-10 This book critically examines how US foreign policy has produced a regional regime of instability and insecurity in South Asia and the Middle East It focuses on three interconnected zones of conflict Afghanistan and Pakistan in South Asia Iran and the Persian Gulf states and Iraq and its neighbours In a comprehensive historical survey this work compares the governing behaviour of these states with that of the West where the American foreign policy establishment has in contrast pushed for investing in collective security The author studies various events throughout history such as the Taliban regime the US led war in Afghanistan the Obama administration and Pakistan the first and second Gulf wars the Arab Spring and the rise of ISIS to present a theoretical analysis of Washington s consistent pursuit of multibalancing and regime change wars in the region An important critical assessment of Western foreign policies this book will be indispensable for students and researchers of US foreign policy defense and security studies strategic affairs politics and international relations political economy nation state building identity studies globalization studies Middle East studies and South Asian studies
