Unity And Diversity In Language Use Paul Thompson:

Unity and Diversity in Language Use Kristyan Miller, Paul Thompson, 2006-01-23 The papers in this collection drawn from the 34th Annual Conference of the British Association for Applied Linguistics reflect a number of different perspectives within the field of applied linguistics at the start of the twenty first century While addressing the theme of unity and diversity each paper prompts critical reflection on tensions within the discipline between stability and change consensus and controversy similarity and variation The interpretation of language use is broad and varied taking both macro and micro perspectives Topics addressed range from issues of global communication in a world of shifting demographics and technological advances to analyses of specific contexts of interaction both professional and personal Contexts of language use frequently coincide with settings of language acquisition both within and beyond the language classroom and this opens up discussion of the focus scope and appropriateness of research stances in applied linguistics and practices in language pedagogy Furthermore variation is considered from a number of social cultural gender related linguistic and discourse perspectives calling into question terminology definitions and the nature of evidence at the heart of applied linguistic theory and practice

Language in Use Loredana Frătilă, 2010-04-16 Language in Use The Case of Youth Entertainment Magazines is a collection of seven studies by several Romanian Bulgarian and Slovenian linguists on the discourse of entertainment magazines targeted at young readers and published in their respective countries The starting point of the seven studies was the idea that the discourse specific to the variety of printed media products selected for analysis was characterized by distinctive features and that these features might exert a manipulative influence on the linguistic and social behavior of the targeted readership The scholars initial aim was to validate these hypotheses and to confirm their soundness across countries However they hope that besides suggesting new perspectives on the discourse chosen for analysis and thus filling a gap in the eastern European literature in the field they may also develop admittedly within limits media literacy in young readers by equipping them with skills that could transform them from passive media consumers into responsible readers able to make informed decisions and thus be less vulnerable to the strategies of manipulation employed by those who control information

The Phraseological View of Language Thomas Herbst, Susen Faulhaber, Peter Uhrig, 2011-11-30 This volume presents the results of the international symposium Chunks in Corpus Linguistics and Cognitive Linguistics held at the University of Erlangen Nuremberg to honour John Sinclair s contribution to the development of linguistics in the second half of the twentieth century The main theme of the book highlighting important aspects of Sinclair s work is the idiomatic character of language with a focus on chunks in the sense of prefabricated items as extended units of meaning To pay tribute to Sinclair s enormous impact on research in this field the volume contains two contributions which deal explicitly with his work including material from unpublished manuscripts Beyond that the articles cover different aspects of chunks ranging from more theoretically oriented to more applied papers in which foreign language teaching and the computational

application of the insights about the nature of language provided by corpus research play an important role. The volume demonstrates the wide applicability and relevance of the notion of chunks by bringing together research from different fields of linguistics such as theoretical linguistics, psycholinguistics, computational linguistics and foreign language teaching and thus provides an interdisciplinary view on the impact of idiomaticity in language.

New Adventures in Language and Interaction Jürgen Streeck, 2010-08-18 In this book sixteen international scholars of language and social interaction describe their distinct frameworks of analysis. Taking conversation analysis and interactional sociolinguistics as their points of departure and investigating ordinary conversation as well as institutions such as health care therapy and city council meetings they often incorporate gesture, prosody and the listener's behavior in the analysis of talk. While some approaches are grounded in a critique of the major schools of interaction analysis others integrate the interactionist perspective with ideas from fields such as systemic functional linguistics, distributed cognition and the sociology of knowledge. Each chapter combines a statement of the terms and methods of analysis with an exemplary analysis of a moment of interaction. *New Adventures in Language and Interaction* gives an excellent overview of the novelty and diversity of interaction focused perspectives on language and of the heterogeneity of approaches that have evolved from the pioneering work of Sacks and Schegloff, Gumperz and their co-workers.

Language Learner Narrative Helen O'Sullivan, 2014-01-02 Increasing numbers of people have contact with other cultures and languages. *Language Learner Narrative* examines representations of this phenomenon in literary texts using an applied linguistic approach. This analysis of written narratives of language learning and cross cultural encounter complements objective studies in intercultural communication and second language acquisition research. Kant's use of the term *Mündigkeit* in his essay *What is Enlightenment?* is used to frame the complex issues of language identity, meaning and reality presented by the texts. Augmented by Pierre Bourdieu's concept of linguistic capital this framing forms a counterpoint to the positioning of these authors as avatars of poststructuralist wisdom. Eva Hoffman. The work includes a uniquely detailed linguistic analysis of Emine Sevgi Zdamar's *Mutter Zunge* and further texts by other widely studied and less familiar authors: Yoko Tawada, Eva Hoffman, Vassilis Alexakis, Z. Do Rock. It also lists literary sources of language learner narrative. Through its fundamental examination of what and how language means to us as individuals this volume will be of wide appeal to students and researchers in applied linguistics, second language acquisition, intercultural communication and literary studies.

Talk as Therapy Joanna Pawelczyk, 2011-07-27 The book is an empirical study of naturally occurring talk between psychotherapist and clients experiencing various anxieties and traumas that most of us recognize and can relate to. By relying on contemporary theories about sequential situated discourse as well as drawing on praxis literature it aims to investigate how psychotherapy as practice is contextually and interactionally accomplished. By scrutinizing patterns of language use which reflect the core norms of the speech event of psychotherapy it offers a unique look into the therapeutic dialogue at the micro level. The book presents a host of practical guidelines as to how to conduct

ethnographic fieldwork at the inter professional research site in order to produce practically relevant findings It also addresses the infiltration of therapeutic norms and strategies into new social contexts Talk as Therapy is about disclosing one's usually dysphoric experiences clarifying and exploring them in the interactional here and now as well as focusing on their emotional aspects in the safety of the relationship with the therapist

Taking Stance in English as a Lingua Franca Maicol Formentelli, 2017-06-23 English is undoubtedly the lingua franca of global communication today and plays a major role in the internationalisation of universities where it is increasingly being used as the medium of instruction The use of English as a Lingua Franca ELF in higher education has spread at different speeds throughout Europe over recent decades with Nordic and central western countries leading the way and the regions of southern Europe lagging behind In Italy English taught programmes are a rather new and emerging phenomenon which needs to be empirically investigated to uncover the complex mechanisms of classroom interaction in this foreign language The present volume focuses on one aspect of ELF academic exchanges that is deemed crucial in the transmission of knowledge in the educational setting namely the management of interpersonal relations and the expression of interpersonal stance in the classroom To this end a model has been developed along the four dimensions of formality power social distance and respect and has been applied to the analysis of a corpus of ELF lectures recorded in an Italian university The examination of naturally occurring ELF lectures reveals a complex combination of linguistic strategies that lecturers exploit at the macro level of discourse interpersonal episodes and at the micro level of lexis and morpho syntax direct questions comprehension checks imperatives personal pronouns and terms of address to express interpersonal meanings and build rapport with their students in response to specific expressive and communicative requirements brought about by ELF academic interaction
