Mattering Spiritualities Silvia Battista, David Mason, 2025-03-31 *Mattering Spiritualities* brings together an array of international scholars and practitioners to explore spirituality in embodiment through the lens of performance performative writing and performance studies The book concerns spirituality and takes the body as the site of whatever it is we call spirituality The methodological assumption is that the opposition of body and spirit is a false binary that calls for re examination and revision It stems from the argument that people can deliberately shift their boundaries of perception and knowing through practice technologies and performative techniques that can alter the way in which they perceive the ecologies in which they are embedded This approach understands that careful attention to which bodies are performing in any given scenario is crucial as is a sensitivity to the ramifications of any body's race gender class and biological ability Performance can therefore be regarded as anything through which individuals and collectives experiment with bodies as technologies Each chapter engages with such experiments to explore how bodies experience and relate to other bodies human and other than human but also how by mobilizing bodies and changing relationships between them practitioners can transform people spaces and places objects ecologies large and small and shift the borders of the known Such experiments can also reveal intersectional dynamics within given social political and biological borders offering new perspectives and

Byram Karasu,2013-10-22 In *Life Witness* Evolution of the Psychotherapist T Byram Karasu demonstrates how a young therapist can become an expert clinician by transcending his own school of therapy Every young therapist attempts to perfect his skills by anchoring onto a single paradigm and becoming an expert technician of that particular school Within the first five to ten years of practice the so called experiential evolution phase the therapist finds that no single paradigm is suitable for treating all psychopathology The therapist thus begins to appropriate techniques from other schools of psychotherapy and by shifting paradigms synchronizes himself with the patient s mind It is from this synchronization that all his techniques begin to evolve and an expert clinician can evolve into a master psychotherapist The therapist who has transcended his school of psychotherapy now must transcend the field of psychotherapy itself If he wants to address the patient s existential issues as well the therapist first has to come to terms with those issues himself After all the therapist can take the patient only so far as he himself has come *Life Witness* demonstrates that this formative evolution phase of a therapist encompasses a broad education in literature philosophy and spirituality Karasu ultimately concludes that therapists must find the meaning and purpose of life before they can cultivate an authentic self and become someone whose presence is itself therapeutic Once this occurs all therapeutic messages will naturally emanate from within **Sociological Abstracts** Leo P.
