Toward A Culture Of Nature Environmental Policy And Sustainable Development In Cuba:

Toward a Culture of Nature Pamela Stricker, 2007-01-01 In 1989 facing a grace shortage of petroleum Cuba moved toward a more sustainable society and lighter ecological footprint by adopting renewable energy resources organic agriculture green medicine strict environmental protection laws and incorporating environmental education and ethics into public education while maintaining a commitment to social development in health care and education to its people Toward a Culture of Nature rejuvenates the debate on sustainable development by linking social justice concerns with environmental protection **Cuba** Louis A. Pérez, 2015 Spanning the history of the island from pre Columbian times to the present this highly acclaimed survey examines Cuba's political and economic development within the context of its international relations and continuing struggle for self determination The dualism that emerged in Cuban ideology between liberal constructs of patria and radical formulations of nationality is fully investigated as a source of both national tension and competing notions of liberty equality and justice Author Louis A P rez Jr integrates local and provincial developments with issues of class race and gender to give students a full and fascinating account of Cuba's history focusing on its struggle for nationality

Surviving Collapse Christina Ergas, 2021 As environmental crises loom Surviving Collapse makes an argument for radical changes in the ways in which people live to avoid a dystopian future To foster readers imagination Christina Ergas reveals real utopian stories that counter climate apocalypse narratives Two eco communities offer examples of alternative futures with small environmental footprints and more egalitarian social practices They model solutions to the interconnected problems of rising social inequalities and environmental degradation Each case engages in community oriented practices direct democracy and ecological agricultural forms that attend to whole ecosystems These practitioners recognize the value of whole biotic communities human and nonhuman and practice reciprocity **At Nature's Edge** Gunnel Cederlöf, Mahesh Rangarajan, 2018-09-18 In an epoch when environmental issues make the headlines this is a work that goes beyond the everyday Ecologies as diverse as the Himalayas and the Indian Ocean coast the Negev desert and the former military bases of Vietnam or the Namib desert and the east African savannah all have in common a long time human presence and the many ways people have modified nature With research covering countries from Asia Africa and Australia the authors come together to ask how and why human impacts on nature have grown in scale and pace from a long pre history The chapters in this volume illumine specific patterns and responses across time going beyond an overt centring of the European experience The tapestry of life and the human reshaping of environments evoke both concern and hope making it vital to understand when why and how we came to this particular turn in the road Eschewing easy labels and questioning eurocentrism in today's climate vocabulary this is a volume that will stimulate rethinking among scholars and citizens alike *The Yearbook of European Environmental Law* Thijs Etty, Han Somsen, 2008-09-04 The Yearbook of European Environmental Law is a joint venture between leading academics practitioners and Community officials Academics and students will find a wealth of

information in the stimulating and clearly written articles The well structured and reliable Annual Survey is specifically designed to provide easy access to the very latest developments in environmental law at the European level Separate parts of the Yearbook are devoted to important policy documents and reviews of books
