What Is Zoopoetics?

Kári Driscoll, Eva Hoffmann, 2018-03-21 This book brings together essays dealing with the question of zoopoetics both as an object of study i.e. texts from various traditions and periods that reflect explicitly or implicitly on the relationship between animality language and representation and as a methodological problem for animal studies and indeed for literary studies more generally What can literary animal studies tell us about literature that conventional literary studies might be blind to How can literary studies resist the tendency to press animals into symbolic service as metaphors and allegories for the human whilst also avoiding a naïve literalism with respect to the literary animal The volume is divided into three sections Texts which focuses on the linguistic and metaphorical dimensions of zoopoetics Bodies which is primarily concerned with mimesis and questions of embodiment performance and lived experience and Entanglement which focuses on interspecies encounters and the complex interplay between word and world that emerges from them The volume will appeal to scholars and students in the fields of animal studies area studies and comparative literature gender studies environmental humanities ecocriticism and the broader field of posthumanism

Finding the Fox Andreas Tjernshaugen, 2024-03-26 An intimate portrait of a mysterious and misunderstood animal Tjernshaugen writes in an easy to read style that is full of insight and understanding I felt like I was sitting beside him as he described fox behavior Rick McIntyre Yellowstone wolf researcher and author of *The Rise of Wolf* 8 If you look into the fox's amber eyes you'll notice vertical pupils With such feline eyes in a slender canine body the fox is a relative of the dog and the wolf but it hunts alone like a cat The fox lives close to people both in the city and in the country but it's wild shy and secretive Taking long walks in the early morning equipped with wildlife cameras and sometimes with his dog Topsy by his side Andreas Tjernshaugen journeys into the forest hoping to encounter the foxes living just outside his small town in Norway He knows the telltale signs of how to find a fox den how to identify a pawprint in the snow and the smells that foxes leave behind He meets a vixen he named Blackback and he watches carefully as she and other foxes hunt play and live together as families Throughout this captivating book Tjernshaugen investigates the fox's place in our own cultural history such as Reynard the Fox the Scandinavian inspiration for Disney's Robin Hood and the fables of Aesop which depict foxes as sly and cunning a reputation that may not be fully earned Tjernshaugen argues What is true is the fox is wilder than other wildlife and largely survives in spite of our plans and regulations like an outlaw so I see it as a symbol of freedom and independence

Ethnomusicology Jonathan McCollum,David G. Hebert,2014-09-11 Historical ethnomusicology is increasingly acknowledged as a significant emerging subfield of ethnomusicology due to the fact that historical research requires a different set of theories and methods than studies of contemporary practices and many historiographic techniques are rapidly transforming as a result of new technologies In 2005 Bruno Nettl observed that the term historical ethnomusicology has begun to appear in programs of conferences and in publications Nettl 2005 274 and as recently as 2012 scholars similarly noted an increasing concern with the writing of musical histories in ethnomusicology Ruskin and Rice 2012 318 Relevant positions recently advanced by other authors include that historical musicologists are all ethnomusicologists now and that all ethnomusicology is historical Stobart 2008 yet we sense that such arguments while useful and theoretically correct may ultimately distract

from careful consideration of the kinds of contemporary theories and rigorous methods uniquely suited to historical inquiry in the field of music In *Theory and Method in Historical Ethnomusicology* editors Jonathan McCollum and David Hebert along with contributors Judah Cohen Chris Goertzen Keith Howard Ann Lucas Daniel Neuman and Diane Thram systematically demonstrate various ways that new approaches to historiography and the related application of new technologies impact the work of ethnomusicologists who seek to meaningfully represent music traditions across barriers of both time and space Contributors specializing in historical musics of Armenia Iran India Japan southern Africa American Jews and southern fiddling traditions of the United States describe the opening of new theoretical approaches and methodologies for research on global music history In the Foreword Keith Howard offers his perspective on historical ethnomusicology and the importance of reconsidering theories and methods applicable to this field for the enhancement of musical understandings in the present and future
