Vitamin P Barry Schwabsky, 2004-09-14 Presents the work of 114 contemporary artists in an A Z sequence **Vitamin P: New Perspectives in Painting**, 2010 **Vitamin P** Thomas Bayrle, 2002 *Expanded Painting* Mark Titmarsh, 2017-08-24 The relevance of painting has been questioned many times over the last century by the arrival of photography installation art and digital technologies But rather than accept the death of painting Mark Titmarsh traces a paradoxical interface between this art form and its opposing forces to define a new practice known as expanded painting giving the term historical context theoretical structure and an important place in contemporary practice As the formal boundaries tumble the being of painting expands to become a kind of total art incorporating all other media including sculpture video and performance Painting is considered from three different perspectives ethnology art theory and ontology From an ethnological point of view painting is one of any number of activities that takes place within a culture In art theory terms painting is understood to produce objects of interest for humanities disciplines Yet painting as a medium often

challenges both its object and image status expanding and creating hybrid works between painting objects screen media and text Ontologically painting is understood as an object of aesthetic discourse that in turn reflects historical states of being Thus Expanded Painting delivers a new kind of saying a post aesthetic discourse that is attuned to an uncanny tension between the presence and absence of painting After Modernist Painting Craig Staff,2013-03-14 Painting has often been declared dead since the 1960s and yet it refuses to die Even the status and continued legitimacy of the medium has been repeatedly placed in question As such painting has had to continually redefine its own parameters and re negotiate for itself a critical position within a broader more discursive set of discourses Taking the American Clement Greenberg s Modernist Painting as a point of departure *After Modernist Painting* will be both a historical survey and a critical re evaluation of the contested and contingent nature of the medium of painting over the last 50 years Presenting the first critical account of painting rather than art generally this book provides a timely exploration of what has remained a persistent and protean medium Craig Staff focuses on certain developments including the relationship of painting to Conceptual Art and Minimalism the pronouncement of paintings alleged death its response to Installation Art s foregrounding of site how it was able to interpret ideas around appropriation simulation and hybridity and how today painting can be understood as both imaging and imagining the digital *After Modernist Painting* is an invaluable resource for those seeking to understand the themes and issues that have pertained to painting within the context of postmodernism and contemporary artistic practice

Contemporary Painting in Context Anne Ring Petersen,Mikkel Bogh,Hans Dam Christensen,Peter Nørgaard Larsen,2010 These essays examine the transformation and expansion of the field of painting in relation to the more general lines of development in culture and visibility The book is divided into five parts with each of them pursuing a distinct line of inquiry

Artworld Prestige Timothy Van Laar,Leonard Diepeveen,2013-01-09 *Artworld Prestige* examines the ways in which cultural arguments about value develop the processes by which some practices artists and media in the artworld win and others lose The authors argue that the concept of prestige although uncomfortable and consistently overlooked is an essential model for understanding artworld values as important as the more common models centered on economics or power **Comic Abstraction** Roxana Marcoci,2007 Foreword by Glenn D Lowry Text by Roxana Marcoci

Pentecostal Aesthetics Steven Felix, 2015-02-04 Pentecostals have not sufficiently worked out a distinctively Pentecostal philosophy of art and aesthetics In *Pentecostal Aesthetics Theological Reflections in a Pentecostal Philosophy of Art and Aesthetics* with a foreword by Amos Yong Steven Felix corrects this by reflecting theologically on art and aesthetics from a global Pentecostal perspective particularly through a pneumatic Pentecostal lens Felix contends that a Pentecostal philosophy of art and aesthetics must comply with the global experiential and pneumatocentric nature of the Pentecostal movement Such a philosophy can be ontologically grounded in a relativistic theory of art Theological reflections concerning the nature and purpose of art must then be sensitive to the ontological foundations secured thereof In this fashion Pentecostals can gain ample insight about the Spirit's work in today's contemporary artworld
