Tangney, Mark Sutcliffe, 2018-06-12 *Transition In Through and Out of Higher Education International Case Studies and Best Practice* recognises that the initial steps into undergraduate education mark only the beginning of the journey for students and that the journey involves other significant transition points that students need to negotiate. By providing theoretical knowledge alongside practical guidance and resources, this book helps those involved in university teaching guide students through their experiences and develop into autonomous reflective learners. Putting student engagement at the centre of teaching, *Transition In Through and Out of Higher Education International Case Studies and Best Practice* includes case studies to illuminate best practice with resources and activities that can be used and adapted to address the individual needs of students. Addressing a wide range of themes, it considers active learning, promoting engagement, encouraging independence and autonomy, coping with change and increasing complexity, the need for belonging and identity, social and academic integration, developing partnership, working evaluation of effectiveness of developments to teaching practice. From exploring the underlying pedagogy related to the theme to identifying the major challenges for students at key transitional points, *Transition* offers a comprehensive grounding to generate and inspire creative teaching that in turn enables students to better engage in the transition process. A highly practical and accessible resource, this book is suitable for all higher education staff involved in supporting students' transition in through and out of university.

Cultural Awareness in Teaching Art and Design Kirsty Macari, 2024-06-10 *Cultural Awareness in Teaching Art and Design* addresses an emerging area of development in contemporary pedagogy: the fostering of cultural awareness and sensitivity in the designers of tomorrow. By offering new and unique examples of how to better educate students around issues of cultural awareness, this book presents teaching methodologies that ultimately facilitate students in becoming better and more inclusive art and design professionals. Today, the role of education in the addressing of social and cultural issues is increasingly seen as central to pedagogical methodologies. Through engaged teaching, experiential learning, socially orientated pedagogy, or any other definition, the idea that students can and should be exposed to and deal with issues of importance to various stakeholders is increasingly seen as central to the teaching and learning experience, whether it be in relation to local communities, national economies, regional cultural identities, or more. This is explored in a series of innovative cross-disciplinary case studies in art and design teaching, with authors approaching questions of cultural awareness and engagement through the lenses of art history, product design, communication design, film, architecture, and interior design. In presenting their pedagogical methodologies and case studies, the authors in this text offer a unique cross-disciplinary design perspective that captures the cultural and social concerns of several regions of the world: Europe, North America, Asia, and Africa, and the Middle East. This book will be essential reading for art and design educators and students interested in developing and applying models of cultural awareness and engagement in the classroom and studio.
