Unlearning The Basics A New Way Of Understanding Yourself And The World:

Unlearning the Basics Rishi Sativihari, 2010-05-10 In fresh and inviting language and making frequent use of strikingly clear diagrams and illustrations Unlearning the Basics challenges many of our common sense understandings about ourselves and the world The author lays out a new way of seeing that enables us to live more serenely more compassionately and more free from the slings and arrows of our busy lives Along the way Rishi Sativihari looks at love and grasping at the great unfixables and at how vulnerability and pain feed the evolution of character all in the service of helping us return to our true home and find new ways to flourish Grounded in the Buddhist tradition yet completely free from the formulas of traditional tired presentations Unlearning the Basics has an informal straightforward style that will immediately captivate the reader

New Age Wolves DA Smithart, 2022-08-01 This book was written to encourage others to be sober and vigilant and to value the gift of discernment You know that intuition or unease we get when something is not quite right Far too often we have a tendency to ignore that check in our spirit or we think there might be something wrong with us Here we are in church surrounded by believers that are clapping shouting amen and agreeing in unison And we look around to see if anyone else might be thinking something is not right because we have received that Holy Spirit aEUR tm s nudge that something is amiss The preacher is delivering a helluva hallelujah sermon and the congregation is eating it up But something does not seem right We leave the service feeling like we missed something important or we are spiritually inadequate because most everyone seemed to love the service We get home and we call a friend and ask aEURoeWhat did you think of the service aEUR aEURoeAmazing The preacher was spot on aEUR they reply We hang up the phone thinking that we must have a spiritual deficiency Or we attend a service and there are people going up and getting prayed over We want prayer but

something seems weird about this prayer session We pass off our discernment and tell ourselves aEURoeThis is just a flesh thing within me aEUR So we ignore the warning and go up to receive prayer After service we approach the preacher and ask him some questions we had about the sermon We receive no satisfactory answers and we chalk it up to our own lack of understanding and our being spiritually inept This is what this book is about Encouraging you to accept discernment as a warning and investigate the questionable situation further rather than finding fault within yourself This does not mean we are to disrupt a service or argue with the leaders of the church but it does mean that we are to stop ignoring that check we get in our spirit even when others do not seem to notice anything wrong Ask questions Research and investigate what is being taught and what is being practiced when you feel something is amiss Discernment is a gift that God gave us to keep us guided in the right direction Use it or youaEUR tm ll lose it

start now **The Art of Public Speaking** Anthony Ekanem,2016-08-03 Any guide to success in an endeavor will tell you that there is no magic formula to success But in a lot of fields of endeavor there seem to be insider secrets And taking on the challenge of becoming a truly great public speaker is a noble ambition But if you could learn the insider secret that makes the difference between good public speakers and great ones that would help you make that transition Actually there is one great secret to what makes speakers that really shine in front of a group so great But it is not magic or something that you can take as a pill and an hour later you are ready to stand up and dazzle the crowd It is a very simple process that is something you already know a lot about It is just simple old fashioned hard work and preparation The further in advance you can start getting ready for a presentation the better your public speaking will be You know that feeling of terror that you experience when you address a crowd Well you may not be able to pinpoint why that feeling comes upon you But many times it comes up because you are not completely prepared and you do not know what to do or how it will go because the material is not as well developed as it should be If you put the work in on your presentation it will make all the difference in the world when you stand up to give your presentation First of all make sure the content meets your standards You should make that speech compelling and fascinating to you And if that presentation is full of great material it will not only fascinate you but you will be eager to get up there and share what you know with your audience And that eagerness to speak is a very refreshing feeling when it replaces that terror you felt when you did not work hard in advance to make sure the material was well developed in advance Your audience will notice that big change in your attitude too *Web Works* Martin Irvine,1997
