perhaps he isn't crazy after all And with the help of the voice he develops psychic abilities and uses them to win back control of a private trust that gains him access to a fortune But now the voice wants Michael to begin communicating with others who have portals as well By linking with them he can share his psychic abilities and they all can become powerful Join Michael on a fantastic journey filled with adventure unanswered questions and false appearances in *The Distant Voices*

Houghton-Alico, 2016-03-01 In 2001 sixty year old author Doann Houghton Alico and her husband embarked on a ten year sailing circumnavigation visiting forty one countries and sailing over 43 000 nautical miles As an award winning author of both technical books and poetry she brings her love of research into the tangents of the stories she encountered and her lyrical voice to create a picture of the world few of us know The author an adept observer and an enthusiastic participant in what life has to offer writes of her love of the sea at night far away from land but she also describes such exotic places as remote islands of the South Pacific where black magic and wives bought for three boar tusks are the norm She evokes the spirit of people and places by revisiting their cultural and natural history and exploring beneath the surface Her portrayals are riveting drawing the reader quickly into an intimate chronicle of tragedy and beauty Doann's poetry and photographs add additional dimensions to her evocative writing Doann relishes places like the sandy forbidding uninterrupted views of the Sudanese desert from the marsas inlets of the Red Sea where flamingoes and camels abound but also addresses the more

serious issues she witnessed such as survival in areas of exploding populations decreasing food supplies climate change and the impact of war She describes both in a visceral yet insightful way Her inquisitiveness the allure of exploration and a strong curiosity about the world inspire her writing Whether floating in the sea eye to eye with a humpback whale escaping pirates or drinking tea in a bombed out Eritrean alley with refugees Doann takes you there Odyssey of the Voice Jean Abitbol,2006 Renowned French otolaryngologist Jean Abitbol a lifetime student of the human voice takes readers on an unforgettable odyssey spanning man's first use of voice through the acquisition of language to the use of voice as an expression of self With great wit and charm Dr Abitbol's narrative encompasses everything from the psychological to the physiological from explaining the workings of the voice to celebrating the human voice's highest achievements He describes a fascinating history of the voice its origins its course since the Homo Sapiens first sentences its episodes of hoarseness and its achievements from the newborn cry to the coloratura soprano from the impersonator to the ventriloquist After exploring what is known about the voice Dr Abitbol tells us what our voices are capable of He examines what he describes as the magic of the voice the voice as a fingerprint a reflection of our personality in expressing our sex and sexuality A great portion of this odyssey is devoted to singing and singers both to the complexity of singing in general and to lyrical singing the intricacies of which requires participation of the mechanical emotional and cerebral systems The mysteries of the voice unfold as Dr Abitbol guides readers through the latest physiological and pathological research using examples of historical figures patients and celebrities voices to explain how the ways in which the body moves affect the way the voice sounds and how vocal quality is unique to each human being A unique tour de force of the human vocal instrument Odyssey of the Voice changes the way we think about our voices
