World Poverty And Human Rights Cosmopolitan Responsibilities And Reforms:

World Poverty and Human Rights Thomas W. Pogge, 2023-02-10 Some 2.5 billion human beings live in severe poverty deprived of such essentials as adequate nutrition safe drinking water basic sanitation adequate shelter literacy and basic health care One third of all human deaths are from poverty related causes 18 million annually including over 10 million children under five However huge in human terms the world poverty problem is tiny economically Just 1 percent of the national incomes of the high income countries would suffice to end severe poverty worldwide Yet these countries unwilling to bear an opportunity cost of this magnitude continue to impose a grievously unjust global institutional order that foreseeably and avoidably perpetuates the catastrophe Most citizens of affluent countries believe that we are doing nothing wrong Thomas Pogge seeks to explain how this belief is sustained He analyses how our moral and economic theorizing and our global economic order have adapted to make us appear disconnected from massive poverty abroad Dispelling the illusion he also offers a modest widely sharable standard of global economic justice and makes detailed realistic proposals toward fulfilling it Thoroughly updated the second edition of this classic book incorporates responses to critics and a new chapter introducing Pogge's current work on pharmaceutical patent reform

World Poverty and Human Rights Thomas Winfried Menko Pogge, 2007

World Poverty and Human Rights Thomas Winfried Menko Pogge, 2002 Thomas Pogge tries to explain the attitude of affluent populations to world poverty One or two per cent of the wealth of the richer nations could help in eradicating much of the poverty and Pogge presents a powerful moral argument

Contemporary Cosmopolitanism Angela Taraborrelli, 2015-02-26 Contemporary Cosmopolitanism is the first much needed introduction to contemporary political cosmopolitanism Although it has its roots in classical philosophy and politics Cosmopolitanism has undergone a major revival in the last forty years stirring far reaching and intense international debates Cosmopolitanism is a way of thought and life

which entails an identification of the individual with the whole humankind and implies a moral obligation to promote social and political justice at the global level Contemporary cosmopolitanism reflects a global state that is already in itself highly cosmopolitan and represents an attempt to solve the new problems raised by this situation to reappraise a number of traditional conceptual categories in the light of changes having already occurred or that are still taking place to develop new ones as well as to encourage and guide political institutional reform projects Taraborrelli provides clear descriptions of the three main forms of contemporary cosmopolitanism moral political legal and cultural described through the thought of various figures representative of the more significant approaches Appiah Archibugi Beitz Benhabib Bhabha Held Kaldor Nussbaum Pogge Sousa Santos This book provides a sound and comprehensive basis for the study of cosmopolitanism ideal as a starting point for the discussion of issues of widespread interest such as human rights global justice migration multiculturalism

Parceling the Globe Danielle Poe, Eddy M. Souffrant, 2008 Parceling the Globe is a study in the processes of global democracy It offers an early answer to the question regarding our responsibility to others Through its organization it presents a partial understanding of the globalization process It determines the range of global behaviors and articulates the prospects for peace in a globalizing environment

Patriotic Elaborations Charles Blattberg, 2009-03-01 How might we mend the world Charles Blattberg suggests a new patriotism one that reconciles conflict through a form of dialogue that prioritizes conversation over negotiation and the common good over victory This patriotism can be global as well as local left as well as right Blattberg's is a genuinely original philosophical voice The essays collected here discuss how to re-conceive the political spectrum where deliberative democrats go wrong why human rights language is tragically counterproductive how nationalism is not really secular how many nations should share a single state a new approach to the Arab Israeli conflict and why Canada might have something to teach about the war on terror We also learn about the right way to deny a role to principles in ethics how to distinguish between the good and the beautiful the way humor works the rabbinic nature of modernism the difference between good bad great and evil why Plato's dialogues are not really dialogues and why most philosophers are actually artists

Post-Trial Access to Drugs in Developing Nations Evaristus Chiedu Obi, 2017-07-26 This book begins the discourse on post trial access to drugs in developing countries Underlying ethical issues in global health inequalities and global health research serve as the context of the debate Due to rampant allegations of violations of rights of research participants especially in developing countries it discusses the regulatory infrastructure and ethical oversight of international clinical research thus emphasizing the priority of safeguarding the rights of research participants and host populations as desiderata in conducting clinical trials in developing countries This is the first book that analyzes the major obstacles of affordable access to drugs in developing countries patent and non patent factors and how they can be overcome through a middle ground approach and a new paradigm to establish global health justice which includes national and global health responsibilities The book also deals extensively with all complex aspects of the discourse

on affordable access to drugs in developing countries including intellectual property law international regulations political and cultural systems international trade agreements Furthermore it contains a robust ethical debate and in depth analysis The book crafts a paradigm of global health justice involving a sliding scale of national and global responsibilities for the realization of the right to health in general and access to drugs in particular

Ecumenics from the Rim John D'Arcy May, 2007 John D Arcy May's achievements motivate these essays on ecumenics Amid today's scepticism about the ecumenical movement's relevance the authors demonstrate the necessity of working together for the betterment of all This book deepens our understanding of how theology peace and reconciliation studies and interfaith dialogue critically cooperate for the flourishing of earth's life The perspective of church unity amid ecclesial division is broadened to embrace interfaith and intercultural issues ecumenics becomes visible as the intellectual paradigm of our times

Human Rights, Human Plights in a Global Village Rob Buitenweg, 2007 In today's globalized world all people are within six steps six links of acquaintanceship of every other person in the world Yet a significant percentage of these people we all know live in abject socio economic misery exploited and without enough food or education and often ill How is it possible that these people are only six steps away from us How can human misery continue despite the economic technological and moral progress mankind has made Human rights are intended to alleviate human misery and contribute to a dignified life so isn't this widespread socio economic human misery a violation of people's human rights and especially of their economic social and cultural rights This book addresses the rights the wrongs the law and what we need to do
