Confidential to America David Gudelunas, 2017-09-08 In modern day America newspaper advice columns have become public forums for the discussion of human sexuality Although questions posed to newspaper advice columnists ranges from matters of etiquette to intimacy as they have for decades increasingly most of the limited space in these newspaper features address issues that fall under a broader heading of sexuality Questions about marital fidelity dating and relationships sexual practices gender roles and sexual taboos have all become hot button topics within the morally conservative mainstream press In Confidential to America David Gudelunas shows how since the 1950s advice columns have been one of the few consistent mainstream and widely available public forums for the discussion of topics severely restricted in other places Newspaper advice columns serve as sites of discussion about sexuality within a larger culture that is severely divided on questions of how when and to what extent one may formally speak about sexuality Even now at the turn of the twenty first century high schools remain hesitant to devote more than a semester or two to formal discussions of sexuality When they do under current governmental policy and pressure these discussions are often restricted to abstinence only programs or what might be described as non discussions of sexuality Community based sexual education programs are similarly restricted in their reach funding and more often than not effectiveness In America in the twenty first century talking about sex in educational contexts is perceived to be almost as risky as having sex Gudelunas demonstrates that while formal discussions of sexuality are strictly regulated and often thwarted the informal curriculum of sexuality particularly in the American mass media has become ever more vocal on the topic of sex From depictions conveyed through fictional and reality based popular culture to discussions taking place in the cafeteria if not the classroom and in Internet chat rooms sexuality dominates our collective conscience
