Design the Future Gianni Montagna,Cristina Carvalho,2018-10-03 D_TEX presents itself as a starting point at a crossroads of ideas and debates around the complex universe of Textile Design in all its forms manifestations and dimensions The textile universe allied to mankind since its beginnings is increasingly far from being an area of exhausted possibilities each moment proposing important innovations that need a presentation discussion and maturation space that is comprehensive and above all inter and transdisciplinary Presently the disciplinary areas where the textile area is present are increasing and important such as fashion home textiles technical clothing and accessories but also construction and health among others and can provide new possibilities and different disciplinary areas and allowing the production of new knowledge D_TEX proposes to join the thinking of design with technologies tradition techniques and related areas in a single space where ideas are combined with the technique and with the projectual and research capacity thus providing for the creation of concepts opinions associations of ideas links and connections that allow the conception of ideas products and services The interdisciplinary nature of design is a reality that fully reaches the textile material in its essence and its practical application through the synergy and contamination by the different interventions that make up the multidisciplinary teams of research The generic theme of D_TEX Textile Design Conference 2017 held at Lisbon School of Architecture of the University of Lisbon Portugal on November 2 4 2017 is Design the Future starting from the crossroads of ideas and debates a new starting point for the exploration of textile materials their identities and innovations in all their dimensions **ARCHDESIGN '19 /**

VI. INTERNATIONAL ARCHITECTURAL DESIGN CONFERENCE PROCEEDINGS Ortak Yayın (Mutual

Publication),2019-01-01 VI INTERNATIONAL ARCHITECTURAL DESIGN CONFERENCE 2019 Influence and Resistance in Post-Independence Egyptian Architecture Marwa M. El-Ashmouni,Ashraf M. Salama,2022-07-22 This book is an effort towards an in depth understanding of the architectural discourse in Egypt developed over more than eight decades It offers a distinctive theoretical interpretation of the forces shaping the kaleidoscopic shifts in Egyptian architecture through the analysis of the micro space of architectural representation of twentieth century Egyptian architecture Predicated on historical contextualization theoretical integration and global conceptualization Edward Said s analytical method of contrapuntal reading and the spatial discourse analysis posited by C Greig Crysler are lucidly assimilated to generate insights into various voices within the architectural discourse in Egypt The analysis and critique of two important professional magazines al Imarah 1939 1959 and Alam al Bena a 1980 2000 which shaped the collective psyche of both the academic and professional communities in Egypt and the wider region coupled with the exploration of two other short lived magazines M imaryah 1982 1989 Medina 1998 2002 and other less influential professional magazines discloses the structure of attitude and reference or the exclusions and inclusions that defined the boundaries of the space of the discourse Influence

and Resistance in Post Independence Egyptian Architecture paves the way to genuinely debate a yet to mature twenty first century s architectural discourse in Egypt This book is a key resource for architects architectural historians and critical theorists and will appeal to academics and to both graduate and advanced undergraduate students in architectural history and theory and Middle East and Global South studies

Exotic Nations Renata Ruth Mautner Wasserman,1994 In this highly original and critically informed book Renata R Mautner Wasserman looks at how during the first decades following political independence writers in the United States and Brazil assimilated and subverted European images of an exotic New World to create new literatures that asserted cultural independence and defined national identity Exotic Nations demonstrates that the language of exoticism thus became part of the New World s interpretation of its own history and natural environment

Secret Societies and Clubs in American History David Luhrssen,2015-09-09 Grounded in extensive historical research this eye opening survey reveals the long undervalued role secret societies have played in American history Americans are fascinated by secret societies and have devoured exaggerated claims for their influence At the same time scholarly assessments of covert groups that have shaped American social cultural and political history have often undervalued their role or even questioned their existence This survey challenges both the exaggerators and the deniers Freemasons They may not be the hidden rulers of the world but a significant number of America s founders were Masons The Know Nothings Two American presidents joined the movement The Bohemian Grove Republican politicians and corporate leaders really did engage in strange behavior under the redwood trees through the 20th century Revealing fascinating facts about some of the most talked about covert societies including the Mafia the Skull and Bones and the Ku Klux Klan Secret Societies and Clubs in American History exposes the truth about the subcultures that made their mark on some of the most important events in the nation s history and contributed to the shaping of the country itself

Design ,1994 Bruno Taut's Design Inspiration for the Glashaus David Nielsen,2015-09-16 As a formative exemplar of early architectural modernism Bruno Taut s seminal exhibition pavilion the Glashaus literally translated Glasshouse is logically part of the important debate of rethinking the origins of modernism However the historical record of Bruno Taut s Glashaus has been primarily established by one art historian and critic As a result the historical record of the Glashaus is significantly skewed toward a singular notion of Expressionism and surprisingly excludes Taut s diverse motives for the design of the building In an effort to clarify the problematic historical record of the Glashaus this book exposes Bruno Taut s motives and inspirations for its design The result is that Taut s motives can be found in yet unacknowledged precedents like the botanical inspiration of the Victoria regia lily the commercial interests of Frederick Keppler as the Director of the Deutsche Luxfer Prismen Syndikat and imitation that derived openly from the Gothic The outcome is a substantial contribution to the re evaluation of the generally accepted histories of the modern movement in architecture
