The formation of Croatian national identity Alex Bellamy, 2013-07-19 This book assesses the formation of Croatian national identity in the 1990s It develops a novel framework calling into question both primordial and modernist approaches

to nationalism and national identity before applying that framework to Croatia In doing so the book provides a new way of thinking about how national identity is formed and why it is so important An explanation is given of how Croatian national identity was formed in the abstract via a historical narrative that traces centuries of yearning for a national state The book shows how the government opposition parties dissident intellectuals and diaspora groups offered alternative accounts of this narrative in order to legitimise contemporary political programmes based on different versions of national identity It then looks at how these debates were manifested in social activities as diverse as football religion economics and language This book attempts to make an important contribution to both the way we study nationalism and national identity and our understanding of post Yugoslav politics and society An electronic edition of this book is freely available under a Creative Commons CC BY NC ND licence

State Identities and the Homogenisation of Peoples Heather Rae, 2002-08-15 Why are forced displacement ethnic cleansing and genocide an enduring feature of state systems In this book Heather Rae locates these practices of pathological homogenisation in the processes of state building Political elites have repeatedly used cultural resources to redefine bounded political communities as exclusive moral communities from which outsiders must be expelled Showing that these practices predate the age of nationalism Rae examines cases from both pre nationalist and nationalist eras the expulsion of the Jews from fifteenth century Spain the persecution of the Huguenots under Louis XIV and in the twentieth century the Armenian genocide and

ethnic cleansing in former Yugoslavia She argues that those atrocities prompted the development of international norms of legitimate state behaviour that increasingly define sovereignty as conditional Rae concludes by examining two threshold cases the Czech Republic and Macedonia to identify the factors that may inhibit pathological homogenization as a method of state building

Wandering Spirits Janne Flora, 2019-03-28 It is common to think of the Arctic as remote perched at the farthest reaches of the world a simple and harmonious isolated utopia But the reality as Janne Flora shows us is anything but In Wandering Spirits Flora reveals how deeply connected the Arctic is to the rest of the world and how it has been affected by the social political economic and environmental shifts that ushered in the modern age In this innovative study Flora focuses on Inuit communities in Greenland and addresses a central puzzle their alarmingly high suicide rate She explores the deep connections between loneliness and modernity in the Arctic tracing the history of Greenland and analyzing the social dynamics that shaped it Flora's thorough sensitive engagement with the families that make up these communities uncovers the complex interplay between loneliness and a host of economic and environmental practices including the widespread local tradition of hunting Wandering Spirits offers a vivid portrait of a largely overlooked world in all its fragility and nuance while engaging with core anthropological concerns of kinship and the structure of social relations
