Media, Telecommunications and Business Strategy Richard A. Gershon, 2020-07-19 As the clear lines and historic boundaries that once separated broadcasting cable telephone and Internet communication dissolve this comprehensive new edition examines the relationship and convergence patterns between industries by exploring the effects of digitalization in media and information technology With today s dynamic and rapidly evolving communication environment media managers

need to have a clear understanding of the different delivery platforms as well as critical management and planning strategies going forward. Advancements in new media and communication technology coupled with a rapidly changing global economy promise a new set of hybrid media companies that will allow for the full integration of information and entertainment services and give new meaning to the term programming. This book provides a detailed look at seven key sectors of the media and telecommunications field as well as ongoing changes within the industry. The new edition includes updated research throughout including material on major business and technology changes as well as the importance of digital lifestyle reflected in E-commerce and developments in Over the Top Video streaming services. Special attention is given to such areas as strategic planning, innovation, marketing, finance, and leadership. Perfect for courses in media management and media industries as well as professional managers, this book serves as an important reference guide during this transitional time.

Telecommunications and Business Strategy Richard A. Gershon, 2009-03-04. With today's communications industry experiencing major changes on an almost daily basis, media managers must have a clear understanding of the different delivery platforms as well as a grasp of critical management, planning, and economic factors in order to stay current and move their organizations forward. *Telecommunications and Business Strategy* helps current and future media professionals understand the relationship and convergence patterns between the broadcast, cable, television, telephony, and Internet communication industries. Author Richard A. Gershon examines telecommunications industry structures and the management practices and business strategies affecting the delivery of information and entertainment services to consumers. He brings in specialists to present the finer points of management and planning responsibilities. Case studies from the International Radio and Television Society (IRTS) competition supplement the main text and offer an invaluable perspective on management issues. Developed for students in telecommunications management, electronic media management, and telecommunication economics, this volume also serves as a practical reference for the professional manager. **Voice And Data Communications**
