One of the easiest ways to grasp any aspect of history is to look at it as a continuum. African American History Day by Day: A Reference Guide to Events provides just such an opportunity. Organized in the form of a calendar, this book allows readers to see the dates of famous births, deaths, and events that have affected the lives of African Americans and by extension of America as a whole. Each day features an entry with information about an important event that occurred on that date. Background on the highlighted event is provided along with a link to at least one primary source document and references to books and websites that can provide more information. While there are other calendars of African American history, this one is set apart by its level of academic detail. It is not only a calendar but also an easy-to-use reference and learning tool.

Radio Drama Tim Crook, 2002-01-04. Radio Drama brings together the practical skills needed for radio drama, such as directing, writing, and sound design, with media history and communication theory. Challenging the belief that sound drama is a blind medium, Radio Drama shows how experimentation in radio narrative has blurred the dividing line between fiction and reality in modern media. Using extracts from scripts and analysing radio broadcasts from America, Britain, Canada, and Australia, the book explores the practicalities of producing drama for radio. Tim Crook illustrates how far radio drama has developed since the first audiophonic production and evaluates the future of radio drama in the age of live phone-ins and immediate access to programmes on the Internet.
