Speaking With One Voice Chantal Benoit-Barné,Thomas Martine,2021-09-23 This book explores the dynamics and challenges that underlie the ability of organizations to speak with one voice Contributions by experienced and emerging scholars shed light on the nature and regulation of the communication processes whereby the many and diverse voices of a collective can unite act and speak as a distinct entity thus contributing

to its organizing By focusing on communicational events whether in the context of for profit and non profit organizations political protests or social movements chapters guide the reader through the diverse manifestations and concrete ways of dealing with the imperative for organizations of all kinds to speak with one voice In doing so the book creates bridges between different perspectives with regard to the notion of voice and its significance for the study of organizing between fields of study and between theory and empirical research aimed at investigating organizing beyond the boundaries of the formal organization Offering a thorough and comprehensive investigation of the dynamics between multivocality and univocality in the organizing of various collectives this book will be an important resource for scholars and students of organizational communication management studies media studies and rhetorical studies Young People's Voices in Physical Education and Youth Sport Mary O'Sullivan,Ann MacPhail,2010-07-12 How do children and young people experience and understand sport and physical activity What value do they attach to physical education and physical literacy This book demonstrates how we can better understand the perspectives of young people and how teachers and coaches can respond to and engage with the voices of young people **Voices from Nubia** Amal Mazhar,Faten I. Morsy,Mona M. Radwan,2024-08-01 The Nubians the largest ethnic community in Egypt saw their ancestral homelands disappear beneath the waters of the Nile from the dawn of the 20th century through to 1964 The massive displacement of this population has been the subject of numerous literary works by Nubian writers who seek to save their heritage from oblivion and to preserve their Nubian collective memory Despite the renewal of socio political interest in Nubia in post 2011 Egypt the authors of *Voices from Nubia* all non Nubian Egyptians claim that art in general and literature in particular remain the domain in which the problematics of what has been called the Nubian Question can be primarily vocalized Only through a thorough reading and analysis of the literary output of Egyptian Nubians can the complexities of Nubia its people and culture can find full expression The rich literary heritage of contemporary Nubian literature allows for a multiplicity of critiques that makes possible a reading of this literature that crosses the borderlines between literature history geography politics gender and ethnicity The diversity of themes and tropes in *Voices from Nubia* reflects a hallmark of Nubian literary output which is generally marked by a common feeling of solidarity around the Nubian cause The array of critical studies included in the volume s eight chapters covers a multiplicity of approaches cultural postcolonial ecofeminist and critical race theory *Voices from Nubia* constitutes an attempt to go beyond the dichotomy between the activist Nubian writer who views the Nubian Question as a human rights issue and Arab Egyptian nationalists who consider the discussion of Nubians as a distinct ethnic group or minority a threat to societal cohesion and national security The editors conclude the book with interviews with three Egyptian Nubian writers belonging to different generations and expressing different positions with regards to the Nubian Question It is thus hoped that this book will introduce the English speaking reader to the rich tradition of contemporary Nubian literature from Egypt written in Arabic On the other hand the book also forces the Egyptian Arab reader to question
