Patent and Trademark Office,1996 **Broken Irelands** Mary M. McGlynn,2022-10-17 While the national narrative coming out of Ireland since the 2008 economic crisis has been relentlessly sanguine fiction has offered a more nuanced perspective from both well established and emerging authors In Broken Irelands McGlynn examines Irish fiction of the post crash era addressing the proliferation of writing that downplays realistic and grammatical coherence Noting that these traits have the effect of diminishing human agency blurring questions of responsibility and emphasizing emotion over rationality McGlynn argues that they reflect and respond to social and economic conditions during the global economic crisis and its aftermath of recession austerity and precarity Rather than focusing on overt discussions of the crash and recession McGlynn explores how the dominance of an economic worldview including a pervasive climate of financialized discourse shapes the way stories are told In the writing of such authors as Anne Enright Colum McCann Mike McCormack and Lisa McInerney McGlynn unpacks the ways that formal departures from realism through grammatical asymmetries like unconventional verb tenses novel syntactic choices and reliance on sentence fragments align with a cultural moment shaped by feelings of impotence and rhetorics of personal responsibility **Foundations of Low Vision** Anne Lesley Corn,Jane N. Erin,2010 Foundations of Low Vision Clinical and Functional Perspectives the ground breaking text that highlighted the importance of focusing on the functional as well as the clinical implications of low vision has been completely updated and expanded in this second edition The revised edition goes even further in its presentation of how best to assess and support both children and adults with low vision and plan programs and services that optimize their functional vision and ability to lead productive and satisfying lives based on individuals actual abilities Part 1 Personal and Professional Perspectives

provides the foundations of this approach with chapters focused on the anatomy of the eye medical causes of visual impairment optics and low vision devices and clinical low vision services as well as psychological and social implications of low vision and the history of the field Part 2 focuses on children and youths providing detailed treatment of functional vision assessment instruction use of low vision devices orientation and mobility and assistive technology Part 3 presents rehabilitation and employment issues for working age adults and special considerations for older adults
