Group's Practice Silvia Solidoro,2025-11-16 This book explores whether the World Bank Group despite not being formally bound by international human rights law operates in accordance with it when financing investment projects involving indigenous peoples who are often among the most impacted The inquiry proceeds along two principal strands grounded in the distinction between operations targeting public and private sector recipients First it traces the evolution of the World Bank Group s policies on indigenous peoples which are binding on its staff and once incorporated into loan agreements on financing recipients as well Second it examines the interpretative practice of the organization s Independent Accountability Mechanisms which review compliance with these policies throughout the project cycle It finds that the policies have evolved alongside key developments in international law and that the Independent Accountability Mechanisms consistently reference both hard and soft international legal instruments in their assessments Building on these findings the book reconsiders whether the World Bank Group may in fact be subject to international human rights obligations Departing from traditional deductive reasoning it adopts an inductive approach grounded in institutional practice It argues that the World Bank Group as an international legal actor is bound by an emerging body of rules and principles of general international law and calls for a reassessment of the organization s role in shaping the human rights discourse on indigenous peoples US&FCS
