Topic 7.1 Shifting Power After 1900

Learning Objective Explain how internal and external factors contributed to change in various states after 1900.	Historical Developments The West dominated the global political order at the beginning of the 20th-century, but both land-based and maritime empires gave way to new states by the century's end. The older, land-based Ottoman, Russian, and Qing empires collapsed due to a combination of internal and external factors. These changes in Russia eventually led to communist revolution. What changes did it bring? Members of the Bolshevik political party were able to take control of Petrograd, the Russian capital. They also won the Russian Civil War. - How did the Mexican Revolution (1910 and beyond) challenge the existing political and social order in Mexico? Land redistribution, universal suffrage, and public education were among the objectives of Mexico's 1917 new constitution.
