Wpf Custom Control Tutorial:

Pro WPF Matthew MacDonald,2007-11-25 The Microsoft Windows Presentation Foundation formerly code named Avalon is a key part of NET 3.0 and provides the foundation for building applications and high quality user experiences in Windows Vista. WPF blends together application user interface documents and media content while exploiting the full power of your computer. WPF functionality extends support for Tablet PCs and other forms of input device and provides a more modern imaging and printing pipeline. It also provides accessibility and user interface automation infrastructure, data driven user interface and visualization and even integration points for weaving the application experience into the Windows shell. Pro WPF Windows Presentation Foundation in NET 3.0 covers WPF from installation to application design and implementation to deployment. One of the most detailed books on WPF technology it provides you with the no nonsense practical advice you need in order to build high quality WPF applications quickly and easily. It also digs into the more advanced aspects of WPF and how they relate to the other elements of the WinFX stack and the NET Framework 2.0.

Pro WPF 4.5 in VB Matthew MacDonald,2013-02-03 Microsoft's Windows Presentation Foundation WPF provides you with a development framework for building high quality user experiences for the Windows operating system. It blends together rich content from a wide range of sources and allows you unparalleled access to the processing power of your Windows computer. Pro WPF 4.5 in VB provides a thorough authoritative guide to how WPF really works. Packed with no nonsense examples and practical advice you'll learn everything you need to know in order to use WPF in a professional setting. The book begins by building a firm foundation of elementary concepts using your existing VB skills as a frame of reference before moving on to discuss advanced concepts and demonstrate them in a hands on way that emphasizes the time and effort savings that can be gained.
