The Utopian Function Of Art And Literature Selected Essays:

The Utopian Function of Art and Literature Ernst Bloch, 1989-03-06 Essays in aesthetics by the philosopher Ernst Bloch that belong to the tradition of cultural criticism represented by Georg Lukács, Theodor Adorno and Walter Benjamin. The aesthetic essays of the philosopher Ernst Bloch (1885-1977) belong to the rich tradition of cultural criticism represented by Georg Lukács, Theodor Adorno and Walter Benjamin. Bloch was a significant creative source for these thinkers and his impact is nowhere more evident than in writings on art. Bloch was fascinated with art as a reflection of both social realities and human dreams. Whether he is discussing architecture or detective novels, the theme that drives his work is always the same: the striving for something better for a homeland that is more socially aware, more humane, more just. The book opens with an illuminating discussion between Bloch and Adorno on the meaning of utopia, then follows twelve essays written between 1930 and 1973 on topics such as aesthetic theory, genres such as music, painting, theater, film, opera, poetry, and the novel, and perhaps most important, popular culture in the form of fairy tales, detective stories, and dime novels. The MIT Press has previously published Ernst Bloch's *Natural Law and Human Dignity* and his magnum opus *The Principle of Hope*. *The Utopian Function of Art and Literature* is included in the series *Studies in Contemporary German Social Thought* edited by Thomas McCarthy.

Male Subjectivity at the Margins Kaja Silverman, 2017-09-25 Through the examination of a range of literary and cinematic texts from William Wyler's classic *The Best Years of Our Lives* to the novels of Henry James, Silverman offers a bold new look at masculinities which deviate from the social norm.

Cruising Utopia, 10th Anniversary Edition José Esteban Muñoz, 2019-04-23 A 10th anniversary edition of this field-defining work, an intellectual inspiration for a generation of LGBTQ scholars. *Cruising Utopia* arrived in 2009 to insist that queerness must be reimagined as a futurity-bound phenomenon, an insistence on the potentiality of another world that would crack open the pragmatic present. Part manifesto, part love letter to the past and the future, José Esteban Muñoz argued that the here and now were not enough and issued an urgent call for the

revivification of the queer political imagination On the anniversary of its original publication this edition includes two essays that extend and expand the project of Cruising Utopia as well as a new foreword by the current editors of Sexual Cultures the book series he co founded with Ann Pellegrini 20 years ago This 10th anniversary edition celebrates the lasting impact that Cruising Utopia has had on the decade of queer of color critique that followed and introduces a new generation of readers to a future not yet here

Literary Essays Ernst Bloch,1998 The writings of Ernst Bloch represent one of the lasting linguistic and intellectual achievements of German expressionism The literary pieces collected here which date from 1913 to 1964 are held together by Bloch s view of the human as being always beyond itself as anticipating itself and never positively there

Re-Inventing the Postcolonial (in the) Metropolis Cecile Sandten,Annika Bauer,2016-09-27 The notion of the postcolonial metropolis has gained prominence in the last two decades both within and beyond postcolonial studies Disciplines such as sociology and urban studies however have tended to focus on the economic inequalities class disparities and other structural and formative aspects of the postcolonial metropolises that are specific to Western conceptions of the city at large It is only recently that the depiction of postcolonial metropolises has been addressed in the writings of Suketu Mehta Chris Abani Amit Chaudhuri Salman Rushdie Aravind Adiga Helon Habila Sefi Atta and Zakes Mda among others Most of these works probe the urban specifics and physical and cultural topographies of postcolonial cities while highlighting their agential capacity to defy appropriate and abrogate the superimposition of theories of Western modernity and urbanism These ASNEL Papers are all concerned with the idea of the postcolonial in the metropolis from various disciplinary viewpoints as drawn from a great range of cityscapes spread out over five continents The essays explore on the one hand ideas of spatial subdivision and inequality political repression social discrimination economic exploitation and cultural alienation and on the other the possibility of transforming reinventing and reconfiguring the postcolonial condition in and through literary texts and visual narratives In this context the volume covers a broad spectrum of theoretical and thematic approaches to postcolonial and metropolitan topographies and their depictions in writings from Australia and New Zealand South Africa South Asia and greater Asia as well as the UK addressing issues such as modernity and market economies but also caste class and social and linguistic aspects At the same time they reflect on the postcolonial metropolis and postcolonialism in the metropolis by concentrating on an urban imaginary which turns on notions of spatial subdivision and inequality political repression social discrimination economic exploitation and cultural alienation as the continuing postcolonial condition

The Decadent Republic of Letters Matthew Potolsky,2012-10-15 While scholars have long associated the group of nineteenth century French and English writers and artists known as the decadents with alienation escapism and withdrawal from the social and political world Matthew Potolsky offers an alternative reading of the movement In *The Decadent Republic of Letters* he treats the decadents as fundamentally international defined by a radically cosmopolitan ideal of literary sociability rather than an inward turn toward private aesthetics and exotic sensation *The Decadent Republic of Letters* looks

at the way Charles Baudelaire Thophile Gautier and Algernon Charles Swinburne used the language of classical republican political theory to define beauty as a form of civic virtue The libertines an international underground united by subversive erudition gave decadents a model of countercultural affiliation and a vocabulary for criticizing national canon formation and the increasing state control of education Decadent figures such as Joris Karl Huysmans Walter Pater Vernon Lee Aubrey Beardsley and Oscar Wilde envisioned communities formed through the circulation of art Decadents lavishly praised their counterparts from other traditions translated and imitated their works and imagined the possibility of new associations forged through shared tastes and texts Defined by artistic values rather than language geography or ethnic identity these groups anticipated forms of attachment that are now familiar in youth countercultures and on social networking sites Bold and sophisticated The Decadent Republic of Letters unearths a pervasive decadent critique of nineteenth century notions of political community and reveals the collective effort by the major figures of the movement to find alternatives to liberalism and nationalism

Messianism, Apocalypse and Redemption in 20th Century German Thought Wayne Cristaudo, Wendy Baker, 2006 At the beginning of the twentieth century the tropes of messianism apocalypse and redemption which had been so central to the West's religious formation seemed spent forces in Germany Nietzsche had pronounced God as dead and theology seemed to be travelling the same secular route as philosophy But World War I changed that This book introduces some of Germany's key thinkers in theology philosophy literature and social and political thought through their engagement with these previously discarded concepts They initiated a new and urgent dialogue between philosophy and theology This imaginative and innovative collection brings together essays by established scholars on Messianism Redemption and Apocalypse in twentieth century German thought Major theologians such as Barth Buber Bonhoeffer Rahner Pannenberg and Moltmann are discussed alongside leading intellectuals such as Adorno Benjamin Bloch Heidegger and Rosenzweig Literary figures such as Kafka and George are also included The interfaces imply a different way of reading theology and challenge the reader to think what the implications of immanence in a specific philosophical culture are for the theological project Some of the essays introduce thinkers who are little known to English speaking readers Others cast new light on more familiar figures The collection as a whole contextualises German religious and philosophical thought on these crucial topics in very useful ways The dialogue at work in these pages is a very important one and should be carried further
