

THE WEB OF POVERTY

The book cover features a dark, atmospheric illustration of a multi-story tenement building at night. A large, translucent spider web is superimposed over the upper half of the image, with its center positioned over the title. The building's windows are dark, and a few lights are visible. The overall tone is somber and evocative.

The Web Of Poverty Psychosocial Perspectives:

The Web of Poverty Anne-Marie Ambert, 1998 Ambert sociology York U Toronto discusses poverty in the US and Canada in terms of its societal systemic and personal origins effects on neighborhoods schools families women children the elderly and minority groups role in creating delinquency subculture and influence on the individual s health development and genetic endowments Paper edition unseen 24 95 Annotation copyrighted by Book News Inc Portland OR **The Web of Poverty** Anne-Marie Ambert, 1998 Instructor's Manual Anne-Marie Ambert, 1998 Social constructionism and theology [electronic resource] Chris A. M. Hermans, 2002 Practical theology starts its theological reflections from practices aims at analyzing empirically practices and is directed towards the transformation of these practices From this practice orientation there is a strong connection between practical theology and the social sciences Social constructionism is a growing theory within the social sciences This volume offers a theological and social scientific reflection on this emerging concept of social constructionism Social Dynamics of the Life Course Walter R. Heinz, Victor W. Marshall, In the last two decades research on the life course has successfully combined and integrated different and rather isolated fields of social concerns such as the labor market family solidarity education employment retirement and social policy It has also developed a special focus on crucial problems of sociological research which includes the understanding of micromacro phenomena the dynamics of social change and international comparisons Contributors to this volume take an international comparative approach in applying the life course theoretical framework to issues of work and career Life course research focuses on the relationship between institutions and individuals across the life span and illuminates the impact of modernization on the shaping of biographies Industrial service societies are characterized by historically new contingencies of living arrangements and biographies These contingencies differ according to the extent to which life course patterns are regulated by social institutions In the continental European context institutional frameworks continue to define the timing and sequencing of transitions across the life course In less regulated market societies like the United States and Great Britain biographies and living arrangements are shaped more by the interaction of markets social networks and individual decisions In active welfare states institutional resources and rules continue to mediate the effects of social change on the life course What the editors and contributors to this fine compendium anticipate is a change on the cultural level toward more equality This trend supports young people and women in particular in their expectations concerning an egalitarian relationship This expectation is not taken for granted from the point of view of the male partner but has to be negotiated in decisionmaking processes as an issue that concerns the couple as a unit Thus the way in which people interact is profoundly impacted by the values and goals of equity demands Walter R Heinz is professor of sociology and social psychology and director Graduate School of Social Sciences University of Bremen Victor W Marshall is professor of sociology and director of the Institute on Aging University of North Carolina at Chapel Hill Carolina *Stepfamilies* Roni Berger, 2020-04-01 Combining theoretical empirical and clinical knowledge

Stepfamilies A Multi Dimensional Perspective contains recent research and information that will help mental health practitioners family therapists psychologists and counselors understand the characteristics dynamics needs and issues of nonclinical stepfamilies Based on direct experiences with diverse types of stepfamilies this book gives you new guidelines and strategies that will enable you to offer more successful sessions to your clients and improve your effectiveness as a practitioner Developed to give you a more realistic understanding of stepfamilies this text helps you avoid the stereotypes and false perceptions that often surround stepfamilies Offering methods and strategies aimed at making your clients feel comfortable about themselves and their situations Stepfamilies A Multi Dimensional Perspective examines several aspects of these families that you need to know in order to improve your effectiveness with them including the definition and description of stepfamilies and recognizing historical and social changes in the stepfamily structure critical reviews on the present knowledge of stepfamilies describing the complexity of family structure the ambiguity of boundaries and roles and the struggle with the diverse phases of the life cycle discussing key issues for stepfamilies such as past orientation and acceptance rejection of differences from non stepfamilies and focal subsystems the profile characteristics and case studies of an innovative typology of stepfamilies that includes integrated families invented families and imported families aspects of ethnically and culturally different stepfamilies including American stepfamilies Israeli stepfamilies and immigrant stepfamilies from the former Soviet Union social perceptions and attitudes of stepfamilies in schools social services community organizations the media and with the law Offering case studies and data on a variety of families and situations Stepfamilies A Multi Dimensional Perspective will show you that all stepfamilies are not the same and cannot be helped by just one practice method Complete with principles and instruments to assess patients and the success of sessions Stepfamilies A Multi Dimensional Perspective works to promote an understanding of stepfamilies that will result in effective and positive therapy for your clients

Parents, Children, and Adolescents Anne Marie Ambert, 2020-12-18 Parents Children and Adolescents presents an integrative perspective of the parent child relationship within several contexts You can expand your empirical and theoretical knowledge of the parent child relationship and child development through the book s unusually holistic theoretical perspective that integrates three main frameworks interactional theories on parents children and development contextual ecological models and behavior genetics This insightful book s empirical scope is broader than that of most books in that it considers the parent child relationship throughout the life course as well as within a great variety of contexts including interactions with sibling and peers at school in their neighborhoods and with professionals You ll gain immeasurable knowledge about parents child rearing styles and how they are affected by environmental variables the interaction between parents and children and between their personalities behavior genetics as one of the explanatory frameworks for the role of genetics and environment negative child outcomes emotional problems conduct disorders and delinquency poverty and other stressors affecting parents and children problematic abusive emotionally disturbed alcoholic
