The Making of Medieval Central Europe Martin Wihoda, 2024-08-26 Although the distant origins of medieval Central Europe have enjoyed constant interest among historians only marginal attention has been paid to the power and political prerequisites for the first Westernization i e the gradual adoption of the values norms and patterns of behavior of the Latin West by the communities gentes around the eastern edge of the Carolingian and subsequently Holy Roman Empires Such a gap in knowledge long overlooked is now being filled by *The Making of Medieval Central Europe Power and Political Prerequisites for the First Westernization 791 1122* While respecting the state of research and based on an original analysis of the sources this book offers an informed reflection of a complex dialogue that was initiated after the collapse of the Avar Khaganate at the end of the 8th century and that by the beginning of the 12th century gave rise to a Central Europe that was Westernized i e turned toward the West yet in many ways distinctive Another and no less important added value of this book is the author's conscious effort to overcome the narrow interpretive matrices defined by the national interests of the time

Medieval Riverscapes Ellen F. Arnold, 2024-03-28 Focusing on storytelling across centuries Arnold explores how rivers were imagined c 300 1100 and reveals a rich complex medieval world

Beyond Cadfael Lucy C. Barnhouse, Winston Black, 2023-06-01 Medievalism and medieval medicine are vibrant subfields of medieval studies enjoying sustained scholarly attention and popularity among undergraduates Popular perceptions of medieval medicine however remain understudied This book aims to fill that lacuna by providing a multifaceted study of medical medievalism defined as modern representations of medieval medicine intended for popular audiences The volume takes as its starting point the fictional medieval detective Brother Cadfael whose observations on bodies herbs and death have shaped many popular conceptions of medieval medicine in the Anglophone world The ten contributing authors move beyond Cadfael by exploring global medical medievalisms in a range of genres and cultural contexts *Beyond Cadfael* is organized into three sections the first of which engages with how disease injury and the sick are imagined in fictitious medieval worlds The second on doctors at work looks

at medieval medical practice in novels films and television and public commemorative practice These essays examine how practitioners are represented and imagined in medieval and pseudo medieval worlds The third section discusses medicine designed for and practiced by women in the Middle Ages and today with a focus on East Asian medical traditions These essays are guided by the recognition that medieval medical practices are often in dialogue with contemporary medical practices that fall outside the norms of Western biomedicine

Grammatica, Gramadach and Gramadeg Deborah Hayden, Paul Russell, 2016-03-31 Grammatica Gramadach and Gramadeg Vernacular grammar and grammarians in medieval Ireland and Wales is concerned with the history of linguistic ideas and literary theory in the vernacular languages of medieval Ireland and Wales While much good work especially by Vivian Law has been done on the Latin materials this volume is the first to engage with the vernacular texts It consists of ten essays that explore a range of interconnected topics relating to these themes Yet while the contributors offer a close analysis of the development of linguistic thought in these literary traditions they likewise seek to situate their discussions within the wider context of European grammatical learning during this period considering both the widespread influence of texts from classical linguistic tradition and also the significance of sources from other contemporary learned disciplines for our understanding of the history of linguistics in the medieval world
