addresses the apparent silence of the English picturesque The book draws on analysis of the visualisations present in the texts of English vocal music and their musical treatment to demonstrate how local composers incorporated celebrations of landscape into their works The final chapter shows that the English picturesque was a crucial influence on Joseph Haydn s oratorio The Seasons Suitable for anyone with an interest in eighteenth century music aesthetics and the natural environment this book will appeal to a wide range of specialists and non specialists alike Sight and Sound Film Review Volume ,1993 **The City of London Magazine** ,1843 *Proceedings of the Delaware County Historical Society* Delaware county historical society,1902 The Graphic ,1922 **The Oxford Handbook of Jack London** James W.
