## **Tornado In A Junkyard The Relentless Myth Of Darwinism:**

Tornado in a Junkyard James Perloff, 1999 In an easy to read text this book examines the growing scientific evidence that is challenging Darwin's theory of evolution lack of transitional forms in the fossil record the impossibility of mutations almost universally destructive serving as evolutionary building blocks the flawed logic of natural selection theory the stunning lack of evidence for ape men the mathematic impossibility of life beginning by itself and much more Also explores the damaging effect societal impact of Darwinism and examines how *Inherit the Wind* grossly misled Americans about the Scopes trial Addresses the ever vital question Are we here by chance or are we created by God Indexed over 80 illustrations hundreds of quotes from scientists ENDORSEMENTS DR DUANE T GISH SENIOR VICE PRESIDENT INSTITUTE FOR CREATION RESEARCH *Tornado in a Junkyard* by James Perloff should be in the library of every one who is interested in the subject of origins This book is a powerful argument for creation because it is thorough fully documented and scientifically accurate It is easily readable by scientist and layman alike and is written in a popular style that will make it interesting and entertaining for readers of all ages I highly recommend this book PUBLISHER'S WEEKLY 8 30 99 James Perloff's intriguing *Tornado in a Junkyard* aims to debunk evolutionary theory in favor of creationism Perloff a former contributing editor to the *New American* draws upon the work of neo Darwinists and geneticists to argue that while microevolution does occur meaning minor adaptations and variations within a species there is no solid evidence for macroevolution or conversion of one animal type into another DR EMMETT L WILLIAMS PRESIDENT CREATION RESEARCH SOCIETY *Tornado in a Junkyard* is a unique presentation of the scientific case against Darwinism informally written for laymen If you are looking for a user friendly explanation of the facts supporting creation this book is for you CONSERVATIVE BOOK CLUB 12 99 James Perloff brings all the data together in a volume readily accessible to nonscientific types His conclusion carefully drawn science contradicts Darwinism Perloff's style unusually lively makes *Tornado in a Junkyard* entertaining as well as educational ACTOR JACK LEMMON WHO PLAYED CLARENCE DARROW IN THE 1999 FILM VERSION OF *INHERIT THE WIND* My congratulations to Mr Perloff for an outstanding piece of work HOMESCHOOLING TODAY JAN FEB 2000 Why another anti evolution book Because *Tornado in a Junkyard* is different Author James Perloff a former fanatical atheist and anti creationist understands the other side's point of view He presents facts that logically disprove Darwinism and unveils the many frauds and lies perpetrated by Darwinists that the public accepts as unshakeable scientific fact ELLEN MYERS CREATION RESOURCE LIBRARY WICHITA KANSAS I've been heavily involved in the creationist movement for many years and am familiar with most of the facts cited in *Tornado* However the racy style the many excellent photos and especially the less known details and extensive documentation will now make *Tornado* my resource of choice in my work THE NEW AMERICAN 9 13 99 Perloff demonstrates in this reviewer's opinion conclusively that scientific evidence when examined honestly does not support modern Darwinism but actually contradicts it This is a very important work written in an informal and attractive

style that is a joy to read VICKI BRADY HOST HOMESCHOOLING USA With so many books out on the evolution creation debate it is getting hard to choose from good better and best James book falls in the best category I recommend that every homeschool family and church have a copy for their libraries CHRISTIAN NEWS 9 27 99 Christian News highly recommends Tornado in a Junkyard **The Death of Evolution** Michael Ebifegha,2007-04 For over a century evolutionists have been deliberately interpreting all scientific data on origins to fit Darwin s theory of evolution For instance although the evidence in the living world and in all reliable fossil deposits shows abrupt gaps evolutionists interpret these gaps as missing links to justify the numerous transformations that the theory predicts The evolutionist paradigm recently suffered a fatal blow when empirical science ripped off its chapter on junk DNA which Darwinists have idolized as the evolutionary key in unfolding ancestral history and thus the unique testimony against a purely creationist worldview All along just so explanations have persistently been tendered to camouflage the discrepancies In Farewell to Darwinian Evolution Michael Ebifegha presents a historical account of God s creation patent and seal and shows that they corroborate the scientific evidence Arguing that a report claiming both invention and ownership of the cosmos must override any theory relating to events in the cosmos that were never witnessed Ebifegha insists it is time to bid farewell to Darwinian transformational evolution macroevolution The focus in science he stresses must be limited to microevolution the aspect that underpins modern advances in medicine agriculture and selective breeding Dr Michael Ebifegha is a scholar with international experience He is a graduate of Ahmadu Bello University Nigeria M Sc Applied Geophysics Carleton University Canada M Sc Physics and the University of Toronto B Ed Ph D Physics He is currently a full time science and mathematics instructor at the Toronto District School Board Ebifegha is the author of The Darwinian Delusion Creation or Evolution and most recently 4th Refuting the Myth of Evolutionism and Exposing the Folly of the Clergy Letters The Darwin Effect Dr. Jerry Bergman,2014-08-01 Dr Miklos Nyiszli an imprisoned doctor in the Auschwitz camp wrote that Nazi doctors hoped studying twins would solve the problem of faster reproduction of superior races Nazis hoped to have each German mother bear as many twins as possible What Darwin influenced went far beyond the Nazi death camps Shocking political social and scientific legacies of Darwin and his family Disturbing disclosure of how over 45 million Christians were killed in the 20th century because of their faith Revealing and layman friendly presentation This book is the result of 30 years of research and study carefully documenting the common destructive threads that tie some of history s most murderous dictators uncaring capitalists and aggressive social activists to the flawed concepts of Charles Darwin in an effort to change the world and how they succeeded The extermination of races considered lower than others the profound lack of empathy for less advanced cultures the corrupted atheistic justifications for taking the lives of millions all done to advance the agendas of social Darwinism at work in the world today More than mere theoretical discussions we have seen the horrifying evidence of the practical results when applying these destructive and misleading concepts to society in the last 100 years Was Darwin Wrong? Yes B. a. M. DIV Richard Pittack,Richard B.

Pittack,2011-07-05 David Quammen became the recipient of an award from the National Geographic Society for his article entitled Was Darwin Wrong NO In it he advocates Darwin s evolutionary theory of Natural Selection and Variation without Limitation of plants and animals Pittack s book entitled Was Darwin Wrong YES is a counter argument and direct refutation of the principle arguments Quammen has extrapolated from Darwin s writings and which is based on Biogeography Paleontology Morphology and Embryology Pittack s book is short and to the point and can be understood by high school students and those adults who have always wondered about the answers to the questions posed by evolutionists and the apostles who extol it more from the author at <http://www.richardpittack.co> *The Evolution of the Long-necked Giraffe (Giraffa Camelopardalis L.)* Wolf-Ekkehard Lönnig,2011 Darwin 1871 and many African folk legends before him proposed a simple but powerful explanation for the large and elongated shape Long necks allowed giraffe to outreach presumed competitors particularly during dry season bottlenecks when leaves become scarce Simmons and Scheepers However this old African folk legend which is still commonly taught in high schools fails to explain among other things the size differences between males and females Giraffe cows are up to 1.5 meters shorter than the giraffe bulls not to mention the offspring The wide migration range of the giraffe and the low heights of the most common plants in their diet likewise argue against the dominant selection hypothesis Also 1 The fossil links which according to the theory should appear successively and replace each other usually exist simultaneously for long periods of time 2 Evolutionary derivations based on similarities rely on circular reasoning 3 The giraffe has eight cervical vertebrae Although the 8th vertebra displays almost all the characteristics of a neck vertebra as an exception to the rule the first rib pair is attached there 4 The origin of the long necked giraffe by a macromutation is due to the many synorganized structures extremely improbable 5 Sexual selection also lacks a mutational basis and what is more is frequently in conflict with natural selection head clubbing is probably a consequence of a long neck and not a cause see also Mitchell et al 2009 6 In contrast to the thus far proposed naturalistic hypotheses the intelligent design theory is basically testable 7 The long necked giraffes possibly all belong to the same basic type inasmuch as 8 a gradual evolution from the short necked to the long necked giraffe is ruled out by the duplication of a neck vertebra and the loss of a thoracic vertebra 9 Chance mutations are principally not sufficient to explain the origin of the long necked giraffe 10 The intelligent design theory offers an adequate and satisfying solution to the problems and points to numerous old and new research projects 11 Mitchell and Skinner present a good analysis of the selectionist problem however their phylogenetic hypotheses presuppose the correctness of the synthetic evolutionary theory and their claims of intermediate forms are unproven similarly summary Part 2 Part 1 shows why Dawkins and Kutschera are wrong The scientific facts speak for design

**Earthshaker** John Benjamin,2012-10-19 What in the world is going on Almost overnight our modern world has entered into a period of great change very suddenly and unexpectedly with the largest and most violent storms earthquakes solar flares flooding droughts severe weather anomalies and earth changes than the greater majority of us have ever experienced

in our lifetimes The largest drought ever recorded in Americas history struck so quickly in 2012 that it was called a flash drought encompassing over half of the entire nation The full extent of the damage that this has caused through crop loss has yet to be realized on the worlds markets but there will most certainly be food shortages soon and prices are already beginning to skyrocket worldwide Water shortages and actual water wars are also beginning to occur The rest of the entire world is also experiencing these same disastrous events Gigantic earthquakes are happening worldwide causing untold destruction So many people have lost their lives or have been displaced by these unexpected tragedies that there is simply no way to account for them all India had a power outage so great that seven hundred million people were without electricity for weeks and people worldwide fear that something of this same magnitude may also strike their area in the very near future What in the world is going on here This book provides the answer to this question and gives sound advice on what you can do to prepare yourself as well as your family and friends to survive the even more severe earth events that may be set to occur shortly in our modern rapidly changing world It is my earnest hope that this book will be a great help and source of strength for you in the uncertain times that lie directly ahead John Benjamin      *Stumbling Blocks of Evolution* Christopher Nitardy,2012-06-29      Ten Lies and Ten Truths Parker Hudson,2005-11 Ten Lies and Ten Truths is a compilation of intriguing short stories each exploring one of the foundational lies in American life today The subjects include marriage abortion character relative truth and macro evolution Immediately following each parable is a specific statement of the underlying Lie its corresponding Truth and several non fiction resources for further study of the issue These resources include other books scripture references and websites The purpose of the book is to arm believers with a memorable story and facts about an important issue And to disarm unbelievers by pulling them into a realistic situation which then requires them to rethink what they have always thought was the Truth An engaging non threatening conversation starter with friends and family members who hold secular views on important cultural issues      **Creation Research Society Quarterly** Creation Research Society,2002      Family Voice ,1999      *American Book Publishing Record* ,2001      Cumulated Index to the Books ,1999      The Cumulative Book Index ,1999      *The Publishers Weekly* ,1999      *Books In Print 2004-2005* Ed Bowker Staff,Staff Bowker, Ed,2004      *Nature* Sir Norman Lockyer,2008
