Determinants of satisfactory shark tourism experiences from the participants' perspective in Gansbaai, South Africa Saskia Hart, 2021-09-15 Bachelor Thesis from the year 2021 in the subject Tourism Miscellaneous grade 1 3 University of Applied Sciences Heide language English abstract The aim of the study is to identify the factors which influence visitor satisfaction in the shark tourism industry in Gansbaai based on TripAdvisor reviews In this regard the methodology used in this study is a qualitative content analysis which is conducted inductively At the end of the study the reader will thus be able to understand not only what determines a satisfactory shark experience but also what limits it Gansbaai a small coastal town in South Africa is considered the shark cage diving capital of the world despite there being over 40 shark tourism destinations worldwide However Gansbaai has one outstanding feature which few other destinations have great white sharks Because of this Gansbaai attracts visitors from all over the world who travel to the area with the expectation to

witness this particular species making it an international hotspot for shark tourists However in recent years a decline in the great white shark population has been widely reported in the media The decline of the shark population is not only a problem for South Africa but globally Today 172 shark species are already on the IUCN Red List of Threatened Species Yet South Africa is one of the few places on earth where humans have the opportunity to interact with this species at close range The outcry is great as the impact on the South African shark industry has been profound It seems that this has also had an impact on the satisfaction of the participants as an ad hoc analysis of online ratings shows This is critical for the industry as potential participants nowadays take their cue from the experiences of previous people The main reason for this is the confusing plethora of tourism services available today Therefore the online review platform TripAdvisor has become a reliable source for travel decisions Accordingly analyses of online reviews have become particularly popular in the tourism and hospitality industry as it allows service providers to gain insight into what influences consumer satisfaction This shows the importance for tour operators in Gansbaai's shark industry to understand what influences visitor satisfaction in order to adjust their concepts sustainably
