The War Against The Intellect Episodes In The Decline Of Discourse:

The War Against the Intellect Peter Shaw, 1989 *The war against the intellect*, 1999 *The War Against the Intellect* Peter Shaw, 1989 **Public Intellectuals** Richard A. Posner, 2009-07-01 In this timely book the first comprehensive study of the modern American public intellectual that individual who speaks to the public on issues of political or ideological moment Richard Posner charts the decline of a venerable institution that included worthies from Socrates to John Dewey This edition contains a new preface and a new epilogue **The End of Two Illusions** Hamid Dabashi, 2022-04-19 Dabashi demonstrates how the West was an ideological commodity and civilizational mantra invented during the European Enlightenment serving as an epicenter for the rise of globalized capitalist modernity In turn Orientalist ideologues went around the world manufacturing equally illusory abstractions in the form of inferior civilizations in India China Africa Latin America and the Islamic world The result was the projection of Islam and the West as the prototype of a civilizational hostility that has given false explanations and flawed prognoses of our contemporary history with weaponized Islamophobia on one side and militant Islamism on the other as its most palpable manifestations Dabashi argues it is long past time to dismantle this dangerous liaison expose and overcome its perilous delusions and reimagine the world beyond its shimmering mirage *Crisis in the Academy* Christopher J. Lucas, 1998-03-15 Not since student turmoil and unrest wreaked havoc on the nation's campuses three decades ago has American higher education been the subject of so much controversy and popular criticism Countless indictments compete for the public's attention as critics explore vital issues confronting today's institutions of higher learning curricular fragmentation declining academic standards the apparent erosion of liberal learning within academe widespread neglect of undergraduate education in favour of academic research and unprecedented financial woes Confusion over fundamental priorities and purposes the author argues lies at the heart of the dilemma facing end of the century higher education Thoughtful and timely *Crisis in the Academy* offers a wide ranging analysis of contemporary higher education while making an important contribution to the ongoing public debate over the future of America's beleaguered and diverse institutions of higher learning **The Opening of the American Mind** Lawrence W. Levine, 1997-08-14 Publicly greeted as the definitive answer to recent attacks on the university Lawrence W Levine's book is a brilliantly argued positive vision of American education and culture *Jacques Derrida (Routledge Revivals)* William Schultz, Lewis L.B. Fried, 2016-06-17 First published in 1992 this book represents the first major attempt to compile a bibliography of Derrida's work and scholarship about his work It attempts to be comprehensive rather than selective listing primary and secondary works from the year of Derrida's Master's thesis in 1954 up until 1991 and is extensively annotated It arranges under article type a huge number of works from scholars across numerous fields reflecting the interdisciplinary and controversial nature of Deconstruction The substantial introduction and annotations also make this bibliography in part a critical guide and as such will make a highly useful reference tool for those studying his philosophy Rebellion in the

University Seymour Martin Lipset, Political activity and student unrest have been recurring phenomena in American universities even after they reached their apogee in the 1960s In *Rebellion in the University* Seymour Martin Lipset reviews that turbulent period and places it in a larger historical perspective He analyzes the source of student activism the roles played by the faculty the spectrum of campus political opinion and the history of American campus protest Two decades after this book was first written the academic community is once more sharply divided over issues of political correctness The term refers to the efforts by campus advocates of leftist politics to control the content of speech courses and appointments and to impose their views with respect to multiculturalism minority rights and feminism Lipset s new introduction is a major effort to account for this new wave of repressive moralism to explain the issues involved to locate sources of support and opposition and to voice a judgment about the current situation in the American academic community **The Imperiled Academy** Howard Dickman,1993-01-01 A senior editor of Reader s Digest has assembled nine essays by academics who take aim at multiculturalism and political correctness as undermining the free speech and intellectual purity of American universities Annotation copyright by Book News Inc Portland OR **Vernacular Insurrections** Carmen Kynard,2013-04-02 Winner of the 2015 James M Britton Award presented by Conference on English Education a constituent organization within the National Council of Teachers of English Carmen Kynard locates literacy in the twenty first century at the onset of new thematic and disciplinary imperatives brought into effect by Black Freedom Movements Kynard argues that we must begin to see how a series of vernacular insurrections protests and new ideologies developed in relation to the work of Black Freedom Movements have shaped our imaginations practices and research of how literacy works in our lives and schools Utilizing many styles and registers the book borrows from educational history critical race theory first year writing studies Africana studies African American cultural theory cultural materialism narrative inquiry and basic writing scholarship Connections between social justice language rights and new literacies are uncovered from the vantage point of a multiracial multiethnic Civil Rights Movement **Idealism, Metaphysics and Community** William Sweet,2017-07-12 This title was first published in 2001 *Idealism Metaphysics and Community* examines the place of idealism in contemporary philosophy and its relation to problems of metaphysics political thought and the study of the history of philosophy Following an extensive introduction by the editor and drawing on the work of the Canadian idealist Leslie Armour the book is divided into three main parts Part 1 focuses on F H Bradley Part 2 examines metaphysical issues and idealism such as the realism anti realism debate the relation of classical and idealist metaphysics rational psychology time and eternity and the divine Part 3 draws on idealism to address contemporary concerns in ethical theory political philosophy social philosophy and culture and the history of philosophy Presenting new insights into the work of classical and contemporary authors this book provides a better understanding of classical idealism and addresses important areas of contemporary philosophical social and political concern Archons and Acolytes Clarence Cyril Walton,1998 A commentary on contemporary culture focusing on the tension between the viewpoints

of G K Chesterton and Jean Baudrillard Walton retired president Catholic University of America builds his arguments in the margins of Harvard Professor Richard Pipes claim that the US has recently acquired a vociferous intelligentsia Walton critiques this intelligentsia in all its forms particularly deconstructionists postmoderns and gender feminists Also covers the impact of this elite on law business and religion Annotation copyrighted by Book News Inc Portland OR *Zealotry and Academic Freedom* Neil Hamilton,2018-04-27 *Zealotry and Academic Freedom* began with the author s personal experience with suppression of academic speech and obstacles to the pursuit of academic quality Using his own tumultuous experience as a starting point Hamilton explores how significant efforts to create an autonomous space for academic speech within the university over the past 125 years have been thwarted Hamilton charges that a fundamentalist academic left in some humanities and social science faculties views the exercise of standards of academic quality and merit based performance evaluations as tools of oppression and bigotry Academic zealots ferret out and oppose hidden structures of so called oppression in our Eurocentric culture Any faculty member overtly supporting academic quality is thus suspected of bigotry and subject to investigations The opening portion of the book locates similarities with the religious fundamentalism of the nineteenth century in waves of zealotry in American higher education The first part covers student activism in the 1960s through the emergence of a radical academic left in the early 1990s The second part examines the meaning of academic freedom and the protection of expression that should be secured The third and final portion shows how targets of the coercive tactics of the zealots in any period of zealotry can and have been effectively rebuked and ultimately overcome Neil Hamilton s book will generate controversy particularly the chapters that inquire into the current wave of academic suppression Hamilton warns that history instructs that it can happen here This candid look into the politics of higher education will be gripping reading for all those concerned with the future of education professors administrators students and parents There has been a growing literature on this subject but none cover the legal political aspects of political correctness with such precision *Paradigms Regained* James L. Battersby,1991-08-29 *Paradigms Regained* is James L Battersby s effort to reclaim for literary study certain legitimate territories that have been needlessly abandoned on the theoretical battlefield Despite assertions to the contrary by poststructuralist or new historicist critics Battersby contends it is still possible to talk intelligently rigorously and usefully about such issues as literary intentionality stable references determinate meaning and objective value judgments of literary works What enables Battersby to make his argument is his reliance not on continental thought but on Anglo American analytic and pragmatic philosophers including Donald Davidson Michael Dummett Nelson Goodman Hilary Putnam John Searle and Israel Scheffler Battersby synthesizes and builds on their work in a way that is at once fresh and distinctive *A University for the 21st Century* James J. Duderstadt,2000-03-08 The challenges facing higher education and the future of the American university as we enter a new century *Dilemmas in the Study of Information* Mary Neill,1992-01-27 This thought provoking book identifies the limits of the field of information

science and thus raises very real problems of the discipline in the context of people using misusing and abusing information S D Neill provides many examples of the uses of information to illustrate how difficult it is to work with In particular he highlights problems of information scientists using information to study information It is the author s contention that information use problems are in certain instances insoluble dilemmas for they are grounded in human nature and can be solved only by altering that nature Neill analyzes certain events to show that while sufficient information was available it wasn t used either because of greed personality or judgement Information is power if and only if you have enough knowledge to understand it the will to use it and the ability to communicate it The dilemmas are found in the control of information for retrieval the use of data originally collected for other purposes and research methods in library and information science

Rewriting Shakespeare, Rewriting Ourselves Peter Erickson, 1994-02 Participants in the current debate about the literary canon generally separate the established literary order of which Shakespeare is the most visible icon from the emergent minority literatures In this challenging study Peter Erickson insists on bringing the two realms together He asks what impact does a revision of the literary canon have on Shakespeare s status Part One of his book is about Shakespeare on women In analyses of several Shakespearean works Erickson discusses Shakespeare s ambivalence about women as a reflection of male anxiety about the cultural authority of Queen Elizabeth Part Two is about contemporary women on Shakespeare Erickson discusses Adrienne Rich s revision of the very concept of canon and discusses how several African American women writers in particular Maya Angelou and Gloria Naylor have reflected on the ambivalent status of Shakespeare in their worlds Erickson here offers a model for multicultural literary criticism and a new conceptual framework with which to discuss issues of identity politics **Rewriting Shakespeare Rewriting Ourselves** makes an important contribution to the national debate about educational policy in the humanities

The Pleasures of Academe James Axtell, 1999-03-11 In this timely book historian James Axtell offers a compelling defense of higher education Drawing on national statistics broad ranging scholarship and delightful anecdotes Axtell describes the professorial work cycle the evolution of scholarship in the past three decades the importance of habitual scholarship and the best ways to judge a university He persuasively confronts the critics of higher education arguing that they have perpetuated misunderstandings of tenure research teaching curricular change and professorial politics

Intellectual Craftsmen Steven Weiland, Weiland highlights the master trends in the American experience by the master reporters of those trends **Intellectual Craftsmen** covers the best writers in the social sciences from 1935 to 1991 Included are essays on John Dollard in social psychology C Wright Mills s version of historical sociology David Riesman and the element of social criticism Margaret Mead and the search for an anthropological method
