The Use of Self in Therapy Michele Baldwin, 2000 This new edition expands upon the first edition with new research numerous case studies tables figures interviews and diagnostic criteria You will benefit from the current and expanded material that will help you to realize and use the positive impact of self in therapy and give clients improved services **BOOK JACKET** **The Use of the Self** Frederick Matthias Alexander, 1946 *The Use of Self in Therapy* Michele

Baldwin, 2013-02-11 One of the most powerful factors in therapy is that it involves the intensive relationship between two or more human beings The issues of transparency and self disclosure therefore become important concerns for therapists how can they use themselves effectively in their work without transgressing on professional regulations These issues and concerns are addressed in this new edition of *The Use of Self in Therapy* by experienced therapists who share their own wisdom research and experiences in valuable ways Disregarding methodology or approach the authors demonstrate how to train and develop the self and person of the therapist as a powerful adjunct to successful therapy They enable practitioners to become more effective in helping their clients to realize and regain their own powers of healing and healthy recovery This 3rd edition also examines the impact of increasing professional regulation as well as the impact of the internet and social media on the conduct of therapy Also new to this edition are discussions of how therapists can use themselves in cultures that are less individually oriented This book is a valuable addition to any therapist's library and therapy supervisor's teaching arsenal **A Course in Mechanical Drawing, for School Use and for Self-instruction** Louis Rouillion, 1922

Revisiting the Use of Self Deena Mandell, 2007 In recent years several developments have stimulated new ways of thinking about the social worker's self or selves in all aspects of practice The focus on practice with diverse populations and the emphasis on anti-oppressive practice have highlighted elements of the relationship between social worker and client The objective of this book is threefold 1 Offer the reader a historical developmental overview of the concept of use of self and critically explore its adequacy for contemporary ethical practice 2 Provide the reader with first person practitioners' accounts of their own use of self in examples of reflective practice approaches 3 Broaden the scope of the concept of critical use of self to fields of service where it is under-theorized in for example community work and corrections **The use of the self**
