When Sparks Fly Dorothy Leonard-Barton, Walter C. Swap, 1999 How does a leader manage for creativity Many managers fall into the trap of assuming that only gifted individuals readily identifiable creative types can produce breakthrough thinking and if you don't have an eccentric genius on your team your efforts are doomed to mediocrity Some even argue that creativity is an art that can't possibly be planned or managed without extinguishing the vital creative spark Yet say Dorothy Leonard and Walter Swap today's most innovative complex services products and processes spring from well led well managed group interactions Blending their backgrounds in business and psychology into a fresh perspective Leonard and Swap sweep aside conventional thinking about creativity to show how managers can actively shape group processes to enhance creative output They offer proven strategies based on a deep understanding of human behavior for stimulating and directing the group dynamics that lie at the heart of innovative thinking The book clearly outlines and analyzes each step in the creative process and gives practical suggestions for managing creative teams including specific techniques for composing groups to maximize creative abrasion re channeling the tensions of conflicting points of view into new ideas and alternative options and failing forward to success Leonard and Swap explore how all aspects of the work environment from leadership style to the promotion of passion to the use of space to maximize serendipity can enhance innovation Drawing on examples in companies that range from small startups to Fisher Price Intel and Hewlett Packard **When Sparks Fly** shows how sophisticated managers can galvanize groups to maximize their creative potential
