The Trap Selling Out To Stay Afloat In Winner Take All America:

The Trap Daniel Brook, 2015-10-16 Takes dead aim at the conservative economic consensus that has dominated U S politics Biting and necessary *The American Prospect* In this provocative witty and revealing polemic Daniel Brook s *The Trap* argues that the exploding income gap a product of the conservative ascendance is systematically dismantling the American dream as debt laden well educated young people are torn between their passions and the pressure to earn six figure incomes Rising education housing and health care costs have made it virtually impossible for all but the corporate elite to enjoy what were once considered middle class comforts Thousands are afflicted with a wrenching choice take up residence on America s financial and social margins or sell out And it s not just impoverished teachers and social workers struggling to pay their rent who are hurt From the activist who works to give others a living wage but isn t paid one himself to the universal health care advocate who becomes a management consultant for Big Pharma Brook presents a damning indictment of the economic and political landscape that traps young Americans When the best and the brightest cannot afford to serve the public good Brook asks what are we selling out an individual s career or the very promise of American democracy *Beyond the Nation-State*

Perlin,2012-04-04 Millions of young people and increasingly some not so young people now work as interns They famously shuttle coffee in a thousand magazine offices legislative backrooms and Hollywood studios but they also deliver aid in Afghanistan map the human genome and pick up garbage Intern Nation is the first expos of the exploitative world of internships In this witty astonishing and serious investigative work Ross Perlin profiles fellow interns talks to academics and professionals about what unleashed this phenomenon and explains why the intern boom is perverting workplace practices around the world The hardcover publication of this book precipitated a torrent of media coverage in the US and UK and Perlin has added an entirely new afterword describing the growing focus on this woefully underreported story Insightful and humorous Intern Nation will transform the way we think about the culture of work **On the Clock** Emily

Guendelsberger,2019-07-16 Nickel and Dimed for the Amazon age Salon the bitingly funny eye opening story of finding work in the automated and time starved world of hourly low wage labor After the local newspaper where she worked as a reporter closed Emily Guendelsberger took a pre Christmas job at an Amazon fulfillment center outside Louisville Kentucky There the vending machines were stocked with painkillers and the staff turnover was dizzying In the new year she travelled to North Carolina to work at a call center a place where even bathroom breaks were timed to the second And finally Guendelsberger was hired at a San Francisco McDonald s narrowly escaping revenge seeking customers who pelted her with condiments Across three jobs and in three different parts of the country Guendelsberger directly took part in the revolution changing the U S workplace Offering an up close portrait of America s actual essential workers On the Clock examines the broken social safety net as well as an economy that has purposely had all the slack drained out and converted to profit Until robots pack boxes resolve billing issues and make fast food human beings supervised by AI will continue to get the job done Guendelsberger shows us how workers went from being the most expensive element of production to the cheapest and how low wage jobs have been remade to serve the ideals of efficiency at the cost of humanity On the Clock explores the lengths that half of Americans will go to in order to make a living offering not only a better understanding of the modern workplace but also surprising solutions to make work more humane for millions of Americans **Organising Neoliberalism** Philip

Whitehead,Paul Crawshaw,2014-10-01 This collection of essays incorporates the insight of an international group of experts to explore the impact of neoliberalism within different organisational domains from both theoretical and empirical perspectives Examining neoliberalism in the context of political social economic and institutional domains this volume promotes a critical and challenging approach to the social and economic attitudes characterising late modern capitalism

Human Dignity, Education, and Political Society James Greenaway, 2020-07-07 A life of liberty and responsibility does not just happen but requires a particular kind of education one that aims at both a growth of the human soul and an enrichment of political society in justice and the common good This we call a liberal education Forgetfulness of liberty is also a forgetfulness of the multi dimensional nature of the human person and a diminution of political life Keeping in mind what can be lost when liberal education is lost this volume makes the case for recovering what is perennially noble and good in the liberal arts and why the liberal arts always have a role to play in human flourishing Each of the authors herein focuses on the connection of three primary themes human dignity liberal education and political society Intentionally rooted in the hub that joins the three themes each author seeks to unfold the contemporary significance of that hub As a whole the volume explores how the three themes are crucial to each other how they illuminate each other how they need each other and how the loss of one jeopardizes the wellbeing of the others In individual chapters the authors engage various relevant aspects of liberal education As a result the volume is organized into three parts Liberal Education and a Life Well Lived Thinkers on Dignity and Education in History Contemporary Topics in Dignity and Education As education is increasingly channeled into an ever more narrow focus on technical specialization and measured against professional success students themselves face a maelstrom of campus politics and competing political orthodoxies These are among the issues that tend to militate against the operative liberty of the student to think and to speak as a person This edited collection is offered as an invitation to think again about the liberal arts in order to recover the meaning of education as the authentic pursuit of the good life or eudemonia

The Urban Connection Luuk Boelens, 2009 The urban connection develops a promising actor relational approach to urban planning With respect to the usual governmental planning it is focused outside in instead of inside out It derives its leitmotif from the actual debate about state controlled versus neo liberal planning and reflects on innovative post structuralist scholars in the field of planning economics social geography and governance It then takes its own position in that debate reflecting on actor oriented experiments in planning practices These experiments deal with the daily planning practice with a pro active and operational attitude contrary to the usual retrospective case studies Therefore it results in concrete suggestions on how to develop a more robust planning approach in an ongoing globalising and fragmenting world
